Lady Pirrie

Golden Ophelia

J. L. Mock

Sunburst

Mme. Butterfly

Lady Hillingdon

MORE THAN \$100.00 VALUE FOR \$7.30

Here is a statement that sounds like an exaggeration, yet it is no exaggeration. One of our customers wrote us that this beautiful planting brought him several hundred dollars more for his home, and enabled him to sell it at this great advantage. This planting will add many times its cost to the value of your property.

We will send you the 13 shrubs required to plant the above as illustrated for \$7.30. The plants we send in this collection are 3 and 4 year old bushy plants, up to 3 feet high, and will give you an immediate effect the first season planted. Planting instructions showing how to arrange the plants to get the above effect are sent with every order. The collection plants a space from 22 to 28 feet long. Two rows.

THE KING OF ALL DEFENSIVE AND ORNAMENTAL HEDGES. Berberry Thunbergii (Japan Berberry)—Very attractive in Spring with its abundance of yellow flowers. Leaves color brightly in the Fall. It has beautiful scarlet berries throughout the Winter. Will stand shearing to any size or shape. Plant 12 to 15 inches apart for a good, low, dense hedge. We will send you 100 plants that will make an immediate hedge 1-1½ feet high for \$15.00; 10 for \$2.00. Smaller plants, 6-12 inches, 20c each; 10 for \$1.50; 100 for \$12.00. We have an extra grade of fine bushy plants, 2 feet, 35c each; 10 for \$3.00; 100 for \$20.00.

HERE IS ANOTHER BEAUTIFUL HEDGE PLANT. California Privet—While not so hardy as the Berberry it will grow higher and can be trimmed to any shape or height. A vigorous grower with thick, glossy foliage of rich green which hangs on the plants in mild localities until Christmas and will keep green all Winter where well sheltered. Plant a foot apart for a good dense hedge. We supply strong plants 2 to 3 feet high to form an immediate hedge for \$8.00 per 100; 25 for \$2.50; 10 for \$1.50. Smaller plants, 18-24 inch, \$7.00 per 100; 50 for \$4.00. 12-18 inch plants, \$6.00 per 100.

BUYING DIRECT FROM NURSERY SAVES YOU 35 TO 50%

IN THIS BIG BARGAIN BOOK we are giving you a real opportunity to add beauty and value to your home at a very low cost. It Will Pay You to Look it Over.

GET YOUR ORDER IN EARLY FOR BIG DISCOUNTS

In addition to our FREE SEED OFFER (see inside cover) we allow the following liberal discounts for early orders.

10% Discount on Cash Orders Received before March 1st

5% Discount on Cash Orders Received before April 1st

THIS CATALOG IS OUR SALESMAN—Through this catalog we sell direct to you, the planter. This saves you the commission usually paid to agents.

CLUB ORDERS—When your order is small get your neighbors to join you. Each order is marked separately, but shipped together to save charges.

TERMS—Cash with order or shipment may be sent C. O. D. when one-quarter of the amount and not less than \$2.00 is sent with order. Send check, money order, or bank draft. No discount allowed on C. O. D. orders.

SMALL ORDERS FOR LESS THAN \$1.00—If your order amounts to less than \$1.00, please add 10c extra for packing costs. Due to the high cost of labor and materials and the fact that it costs nearly as much to handle a small order as a larger one, we find it unprofitable to fill orders for less than \$1.00, without a small additional charge for packing. Please do not send postage stamps in payment for plants.

SUBSTITUTION—In case we are out of a variety or size called for, we reserve the right to substitute another similar variety of equal merit, or another size or grade of an equal value, unless the words "No Substituting" are written on the order, in which case we will fill the order as far as we can and return the balance of the money.

TRANSPORTATION CHARGES—We do not prepay, except where noted by mail. All Express and Freight shipments are forward charges collect. The liberal discount allowed by us about pays shipping charges.

WE GUARANTEE OUR STOCK—To be of quality represented. To be free from disease. To reach you in good condition. If shipment arrives otherwise, we expect customer to notify us immediately. Claims of any kind must be made within 5 days after receipt of stock. We use the greatest possible care to keep our plants true to name. Should any plants prove otherwise we will gladly replace on proper proof being sent us, but we cannot be held liable for more than purchase price of the plants. The fact that most of our customers purchase from us from year to year would indicate that everything has been satisfactory to them and that we can satisfy you.

HOW TO SEND YOUR ORDER—Make out your order on order sheet at the back of this catalog (or use any ordinary writing paper) and be sure to write your name and address plainly and correctly giving express office, county and state then give quantity of each variety wanted with catalog price and enclose amount.

YOU CAN SAFELY SEND YOUR MONEY TO US—We refer you to the First National Bank of Marcellus, N. Y., as to our reliability. Remittances may be sent by Postoffice or Express Money Order, Bank Draft, Personal Check or Registered Letter. Do Not Send Money Loose unless by Registered Mail. We cannot be held responsible for cash sent loose in letters.

Our nurseries are inspected by the New York State Inspectors and a Certificate will be attached to each shipment, certifying that our trees are entirely free from all disease. Nurseries at Geneva, N. Y.; Oak Corners, N. Y., and Phelps, N. Y. Office at Rose Hill, N. Y.

Surplus Plant Bargains

DON'T MISS THEM

Here is a rare opportunity to buy at less than wholesale! To save transplanting cost, we are offering thousands of shrubs at Unheard of Bargains. All healthy, 3 yr. old once transplanted, well-rooted plants usually sold at 50 to 75c each. Send order now for shipment whenever you specify. When orders are for less than \$1.00 add 10c extra for packing and postage.

SHRUBS

These shrubs are well developed, field grown, bushy and well rooted 12 to 18 inch specimens. Sure to grow and should not be confused with the small Mail Order Plants sent out by other firms at these prices.

DEUTZIA, Pride of Rochester—Large double white flowers, blooms in early spring. 30c each, 4 for \$1.00.

FORSYTHIA, Golden Bell—A regular fountain of yellow flowers. One of the most showy plants in cultivation. Blooms in early spring. 30c each, 4 for \$1.00.

HONEYSUCKLE BUSH—In pink, red or white varieties as you may select. Beautiful honeysuckle-like flowers followed by beautiful red berries. 30c each; 4 for \$1.00.

HYDRANGEAS, P. G.—The hardy hydrangea has long panicles of flowers 8 to 12 inches long. 30c each; 4 for \$1.00.

HYDRANGEA ARBORESCENS (The everblooming hydrangea)—Large white flowers 8 to 10 in. in diameter; flowers from July until frost. 30c each; 4 for \$1.00.

Catalpa Bungei

RED SNOWBERRY—Low graceful flowering shrub. Followed by red berry clusters which remain through winter. 30c; 4 for \$1.00.

SNOWBERRY, White—Small rose colored flowers in June and July followed by large clusters of milk white fruits which remain far into winter. 30c each; 4 for \$1.00.

SPIREA VAN HOUTTII (Illustrated)—Queen of all flowering shrubs; complete fountain of white flowers. 25c each; 5 for \$1.00.

SPIREA ANTHONY WATERER—Dark crimson flowers. One of the finest Spireas. 30c each; 4 for \$1.00.

WEIGELA ROSEA—A hardy and beautiful shrub bears a profusion of rose colored flowers in May. 30c each; 4 for \$1.00.

ORNAMENTAL TREES

CATALPA BUNGEII—Umbrella tree, (Illustrated.) Makes a stately sentinel for walks or driveways. Forms an umbrella-like head with large green leaves overlapped with shingle-like precision. Grafted trees on stems 4 ft. high \$1.00 ea; 2 for \$1.75. Carefully packed and with tops pruned ready to plant. Shipped by express.

BECHTEL'S DOUBLE FLOWERING CRAB—Covered in spring with large beautiful delicate pink flowers. 3 ft. plants \$1.00 each. By express.

HEDGE PLANTS

BARBERRY THUNBERGI (Japanese Barberry)—Very attractive for foundation planting or hedges. 25 plants \$3.00; 100 for \$12.00.

CALIFORNIA PRIVET—Another beautiful hedge plant. Vigorous grower. Shears to any size or shape. 50 plants for \$3.00.

IBOTA PRIVET—Hardier than the California Privet and as ornamental. 50 for \$4.00.

NEW FRENCH PUSSY WILLOW

(See Illustration)

THE ONLY OUTDOOR SHRUB GROWN FROM WHICH YOU CAN CUT BOUQUETS DURING WINTER MONTHS

A select improved type, perfectly hardy anywhere. The branches make Finest Winter Bouquets and decorations—used by city florists at high prices. Branches cut December to February, and placed in water indoors, soon bloom. Remove from water and they will retain beauty for months.

Make Fine Tall Hedges or Screens. These plants will fit in any landscape planting and should be planted generously—used as backgrounds like Lilac or Snowball or as tall hedges or screens, set four feet apart. Painted alone for winter cutting, they make beautiful round ornamental shrubs. Nice bushy plants, 2-3 ft. 50c each; 3 for \$1.25; 10, \$4.00.

Planting Instructions sent Free with every order. Do not overlook other bargains in this catalogue in roses, shrubs, fruit trees, berry plants, etc.

FREE. We will give FREE with every order amounting to \$1.00 or over FREE SEEDS for your garden which will give you an abundance of cut flowers during the summer. See inside front cover.

A combination of the plants offered on this page will plant your home grounds at little cost. **DON'T MISS THESE BARGAINS.**

Larger Shrubs and Ornamental Trees are Offered on Pages 8 to 15 in this catalog. Fruit trees, Berry plants, on pages 16 to 25.

Spirea Van Houttii

New French Pussy Willow

FIELD GROWN ROSES

AT BARGAIN PRICES. TO ENCOURAGE ROSE PLANTING.

For those who prefer the budded and grafted roses we offer the following strong field-grown plants at 65c each, 12 for \$7.30. If desired by mail add 10c extra for postage on orders for less than 12 plants.

AMERICAN BEAUTY—The most famous of American Roses. Rich color and delicious fragrance. Deep brilliant red, shading to a rich carmine crimson.

BETTY UPRICHARD—(H.T.)—Artistic shades of color. Face of petals is a delicate salmon-pink to carmine, the reverse is glowing carmine with coppery sheen and a suffusion of orange; large smooth petals. Verbena perfumed.

CRUSADER—(H.T.)—An excellent garden Rose, strong in growth and the flowers are large and beautifully formed. The color is rich velvety crimson. A comparatively new Rose and one that has proved fine for outdoor growing. The blooms come on strong, vigorous stems and are deliciously fragrant.

COLUMBIA (H.T.)—A splendid, large full double Rose of very lasting qualities. It is a strong grower almost thornless with brilliant rose pink flowers, sometimes lighter pink. A great prize-winner. It blooms freely and produces perfect blooms all season.

DUCHESS OF WELLINGTON—The best yellow rose to date. Its lovely buds are very long and pointed. They unfold slowly changing from deep orange yellow to lemon and lighter shades. Half open there is nothing more beautiful than its deep blooms of golden yellow. The flowers are rich tea-scented and freely produced.

ELDORADO—(Illustrated on front cover). Bud and flower very large, full and double; copper suffused orange and salmon borne singly on strong stems; fragrant, vigorous bushy, free blooming.

ETOILE DE FRANCE OR STAR OF FRANCE—(H.T.)—A brilliant shade of clear red-crimson velvet, centering to vivid cerise; large flowers on long stiff stems; vigorous, free-blooming and hardy.

FRAU KARL DRUSCHKI (Illustrated on front cover)—The White American Beauty or Snow Queen. (H.P.)—Hardy, vigorous grower, bright green foliage; splendid long buds, magnificent snow white blooms with large saucer-shaped petals. Rightly named and deservedly a prize winner.

FRANCES SCOTT KEY—An outstanding American variety; extremely large bloom of a rich, crimson-red color; full, very double; borne on long stems of very good lasting quality.

GENERAL JACQUEMINOT (H.P.)—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant.

GENERAL McARTHUR (Illustrated on front cover)—(H.T.) Vivid crimson-scarlet, the most beautiful shade of any garden or forcing Rose offered, retaining its brilliancy when expanded to flowers of superb form, larger than Liberty or Meteor.

GEO. AHREND'S—Also known as Pink Druschki. A large and beautiful pink rose, resembling in size and shape, the wonderful white Frau Karl Druschki.

GOLDEN OPHELIA—(H.T.) (Illustrated on front cover). Bright golden yellow, paling slightly at outer petals; medium sized, beautifully formed, opening to a perfect form. A stiff stemmed year-around forcer, closely set, glossy foliage. Seedling from "Ophelia."

White Killarney

General Jacqueminot

GRUSS AN TEPLITZ Greeting to Teplitz, or Virginia R. Coxé (H.C.)—Hardy in all sections; grows freely to a height of four to five feet; vivid, dazzling, fiery crimson; sweetly fragrant.

HOOSIER BEAUTY—This beautiful Rose is fragrant as Richmond; has more petals, a stiffer stem, a texture like velvet. Glowing crimson scarlet, with darker shadings. Bud is of good length, keeps well in the close-cut state, opens into magnificent bloom.

HUGH DICKSON (H.P.)—Brilliant crimson, shaded scarlet; good size, fine form; free flowering and vigorous in growth; highly perfumed. Awarded Gold Medal, National Rose Society of England.

J. B. CLARK (H.P.)—A very vigorous grower with strong upright canes. Color, intense deep scarlet, heavily shaded blackish crimson; foliage bronzy green in young stage. Magnificent, large perfect blooms. Delightfully scented and keeps a long time.

JONKHEER J. L. MOCK (Illustrated on front cover)—(H.T.) Clear imperial pink, reverse of petals rosy, silvery-white; blooms of magnificent size and form produced freely on stiff, erect canes; the strongest grower in the Hybrid Tea class.

KAISERIN AUGUSTA VICTORIA (H.T.)—Pure white, does not pink when planted out; splendid, large buds and superb, full double blooms, making the choicest cut flowers. A most sturdy grower.

KILLARNEY—White (H.T.)—A pure white sport from the pink parent, newest thing in a forcing rose.

KILLARNEY—Pink, or The Irish Beauty (H.T.)—Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty.

LADY HILLINGDON—(T.) (Illustrated on front cover)—Apricot yellow to orange; long, pointed buds; a free-flowering forcer and a striking decorative Rose. Awarded Gold Medal of National Rose Society.

LADY PIERRE (Illustrated on front cover)—(H.T.)—Outside of petals deep, coppery, reddish-salmon; inside apricot-yellow, flushed fawn and copper; lovely in color and form. Vigorous, free-branching, flowering at the point of every shoot. Gold Medal National Rose Society.

LAURENT CARLE—The massive glowing carmine blooms of this fine Rose are probably the largest of all red Hybrid Teas. The buds are solid, very dark and open slowly to big, bold blooms of finest form, with broad, deep petals of great substance.

LOS ANGELES (H.T.) (Illustrated on front cover)—A Rose of unusual beauty of coloring, being a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. Flowers are perfect in form borne erect on strong, branching stems.

MADAM CAROLINE TESTOUT or The Giant LaFrance (H.T.)—Brilliant satiny-rose, deepening at center and bordered with silver rose; immense broad petals and extremely large flowers.

MARSHALL P. WILDER (H.P.)—Deep, rich glowing; extra large, semi-globular and full; a very strong grower and free bloomer.

MISTRESS JOHN LAING (H.P.)—A beauty in clear, bright shining pink; immense, full blooms on long, stiff stems; sweetly scented.

Hardy Climbing Rose, Dr. Van Fleet.

FIELD GROWN ROSES—(Continued)

65c each, 12 for \$7.30.

MME. BUTTERFLY (H.T.) (Illustrated on front cover)—Color is a harmony of pink, apricot and gold. The flowers resemble Ophelia in form. This Rose is largely grown for cut-flowers and keeps well when cut. Fine for bedding, for if kept well cultivated and in good growing condition it will produce flowers almost continuously all summer and until frost.

MRS. AARON WARD (Illustrated on front cover)—A most desirable and dependable rose that will probably produce more flowers than any other yellow rose. Semi-double, cup-shaped, deep Indian yellow flowers; fragrant; blooms until frost.

PILGRIM (H.T.)—Large, full flowers of lovely silver-pink, the outside clear rosy pink, produced on vigorous free-blooming plants. Splendid for cutting.

MAGNA CHARTA—Clear, rosy red, beautifully flushed with violet crimson; sweet fragrance.

PAUL NEYRON (H.P.)—The largest of all Rose blooms; bright, shining pink, clear and beautiful; very double and full; finely scented; blooms first season and all summer. Grows to a great height in a single season and stems are almost thornless.

PINK RADIANCE—The best and most popular pink Rose in America. The fragrant flowers are large, globular but not compact, brilliant rose-pink, with lighter tints on the inner surface of the petals. The shapely, big buds are borne on long stems.

RED RADIANCE—Its big, bouncing blooms of cerise-red endear this Rose to all lovers of the Queen of Flowers. It is a very free bloomer, and the buds are particularly fine in the half-open state. The flowers are quite good for cutting, but also endure well in the garden and hold their color. The fragrance is sweet.

SENSATION (Illustrated on front cover)—This rose is all that the name implies. It has enormous scarlet crimson blooms of fine deep form. The buds are long pointed and the open flowers beautiful with 30 to 35 petals of great size and substance. Stems long pointed and strong with beautiful foliage.

SOUV. DE CLAUDIUS PERNET—The most dependable golden-yellow garden Rose of today. It is equally charming in bud, or while opening, and after fully blooming. The plants grow freely, and produce flowers liberally.

SUNBURST (Illustrated on front cover)—(H.T.)

Orange and golden-yellow, all intense shades, giving an externally brilliant effect. A giant Rose, long stems, long pointed buds, vigorous, free.

ULRICH BRUNNER or Hardy American Beauty (H. P.)—Brilliant cherry-red flowers of immense size.

SELECT CLIMBING ROSES

FOR PORCHES AND ARBOR

Strong two-year old plants, 60c each; if desired by mail add 10c extra for postage.

AMERICAN PILLAR (C.P.)—Large single flowers of rich rosy-pink, approaching brilliant carmine, just a glint of white at center and golden yellow stamens, a profusion of bloom almost covering the foliage.

THE BLUE ROSE (Veilchenblau)—“A sensation of the Century.” It bears semi-double flowers of medium size, in large bunches.

CRIMSON RAMBLER—A universal favorite, with magnificent large trusses of brilliant crimson flowers.

CLIMBING AMERICAN BEAUTY—Color rosy crimson, almost identical with its pollen parent, American Beauty, and with the same exquisite fragrance, a quality rarely found in climbing Roses. Of strong habit of growth. Will thrive and bloom in almost any situation where a climbing or pillar Rose is desired.

DOROTHY PERKINS—Grows 10 to 15 ft. in a season. Flowers are perfectly double with petals crinkled, and color a clear shell pink.

DOCTOR W. VAN FLEET (H.W.)—A delicate shade of flesh pink deepening to rosy-flesh in the center, resembling Souvenir du President Carnot. High center, petals beautifully undulated and cupped; buds pointed, flowers full and double, open to an immense diameter. Beautiful bronze-green foliage.

EXCELSA or Red Dorothy Perkins (H.W.)—Intense crimson-scarlet; double flowers in brilliant clusters set in glossy, shining foliage which never mildews nor spots.

FLOWER OF FAIRFIELD or Everblooming Crimson Rambler—Brilliant crimson, base of petals white; flowers perpetually and profusely in brilliant clusters from early summer until frost.

MISTRESS ROBERT PEARY or Climbing Kaiserin. (C.H.T.)—Ivory-white, identical with the parent Kaiserin Augusta Victoria, except in its strong climbing habit.

PAULS SCARLET CLIMBER—The flowers of this superb Rose are vivid scarlet, shaded with bright crimson, and are produced in double, borne on good stems.

THOUSAND BEAUTIES (Tausendschon)—Colors of every imaginable shade, from pure white to deep pink. Almost thornless.

Select Approved Peonies

Price of unnamed varieties: Red, Pink or White, 65c each; 3 for \$1.75.

Price of named Varieties listed below, except Felix Crousse, 75c each; 6 for \$4.00.

DORCHESTER—Very late flower of delicate hydrangea-pink.

DUCHESS DE NEMOURS—An early fragrant white, with collar of sulphur-white.

EDULIS SUPERBA—Very early, deep mauve-pink. Rose fragrance. Grand cut flower.

FELIX CROUSSE—Clear brilliant red, coming in late midseason. Each, \$1.00.

FESTIVA MAXIMA—Large full blooms of purest white, flecked crimson. Early and very fragrant.

FRANCOIS ORTEGAT—Dark purple-crimson, with anthers of gold. Fragrant. Early.

GRANDIFLORA ROSEA—Very free flowering. Bright pink, mixed with salmon. Large.

LOUIS VAN HOUTTE—Beautiful dark crimson, with attractive lustre.

MME. CROUSSE—Uniform pure white, with center petals flecked crimson.

Pot Grown Roses for Outdoor Planting

These Roses are propagated on their own roots. No briars or suckers will grow from the roots, like the grafted plants. Roses on their own roots, as we grow them, are the best for the amateur planter. Our stock is larger than ever before and if possible in finer condition. To those unaccustomed to planting own root roses, we would advise that the plants are much smaller than budded or grafted plants, but they give plenty of flowers, and each year become more vigorous and are not killed off, like the budded or grafted plants, with briar suckers growing from the roots. (H.P.) Hybrid Perpetual, (H.T.) Hybrid Tea, (T) Tea Roses.

BROW'S TESTED EVERBLOOMING ROSES

ALEXANDER HILL GRAY (T)—“Best and largest pure yellow Tea Rose.” It is wonderfully productive, every shoot being crowned with a flower bud, which develops into a beautiful straw-yellow bloom. 1-year 25c each; 2 year 70c each.

AMERICAN BEAUTY (H.P.)—The most famous of American Roses. Rich color and delicious fragrance. Deep brilliant red, shading to a rich carmine crimson. Price 1-year 25c; 2-year 80c.

AMERICAN LEGION—Fragrance surpasses even that of LaFrance. Dark blood red flowers. An American Rose for American gardens. 1-yr. 25c; 2 yr. 75c.

ANTOINE RIVOIRE (H.T.)—Charmingly shaded rosy flesh on yellow ground; flowers sweetly fragrant. 1-year 25c each; 2-year 70c.

ANNA DE DIESBACH (Glory of Paris) (H.P.)—Brilliant pink; long pointed buds, very full and sweet. 1-year 25c; 2-year 75c.

BESSIE BROWN (H.T.)—Blossoms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. Snow white, flushed and tinged with pink. Foliage is well up to the flower. 1-year, 25c each; 2 year 70c.

BLUMENSCHMIDT (T)—It is a pure citron-yellow outer petals edged tender rose. It is a splendid bedding sort, flowering abundantly and growing freely; fine stems and foliage. 1 year plants 20c each; 2-year 65c.

CLOTHILDE SOUPERT (H.P.)—Truly a wonderful rose for bedding or for pot culture. Creamy white shading to deep pink at center. This Rose will produce more blooms than any other variety we offer. Price, 1-year 20c each; 2-year 65c.

COLUMBIA (H.T.)—It is a big Rose, the open flower measuring six inches across. Color, true pink, deepening as it opens to a glowing pink. 1-year, 25c each; 2-year 70c each.

CRIMSON QUEEN (H.T.)—A comparatively new Rose of bright velvety crimson. Vigorous grower. 1-year, 25c each; 2-year 70c each.

CRUSADER (H.T.)—A big strong, robust growing variety, with rich velvety maroon blossoms. Strong stems. Fine for cut flowers. 1-year 25c each; 2-yr. 75c.

CAPTAIN CHRISTY (H.P.)—Fresh, delicate pink shading deeper in the center of the flower. The whole flower has a satiny appearance. Price, 1-year, 25c each; 2-year, 70c.

CLIO (H.P.)—(The Peony Rose)—Flowers very large; color flesh shaded in center to rosy-pink. The flowers at perfection are as large as Peonies. Fine for cut flowers. 1-year 30c each; 2-year 85c.

DUCHESS OF WELLINGTON (H.T.)—(Monthly blooming.) Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers develop. The flowers are full, with large petals, great substance, delightfully fragrant, and very free-flowering. 1-yr. 25c; 2-year 75c.

ELDORADO—(Illustrated on front cover)—Bud and flower very large, full and double; copper suffused orange and salmon borne singly on strong stems; fragrant, vigorous bushy, free blooming. 1 yr. 25c; 2-yr. 75c.

ETOILE DE FRANCE (H.T.)—A brilliant shade of velvety crimson. Very striking. Flowers are extremely large on long, but stiff stems—unexcelled for cutting. Price 1-year 25c; 2 year 70c.

FRANCES SCOTT KEY (H.T.)—Black-grained intense scarlet crimson blooms. Richly perfumed. Francis Scott Key is a Rose that should be planted in every garden. 1-year 25c; 2 year 70c.

Bessie Brown

FRAU KARL DRUSCHKI (H.P.)—(Illustrated on front cover)—Splendid buds and immense flowers. 4 to 5 inches across, clear white, perfectly double. 1-year, 25c each; 2-year 75c each.

GENERAL MCARTHUR (H.T.)—(Illustrated on front cover)—Bears large, bright, crimson scarlet flowers on long stems. Famed as an outdoor Rose. 1-yr plants, 25c; 2-yr. plants 75c.

GOLDEN OPHELIA (H.T.)—(Illustrated on front cover)—A most pleasing tint of salmon-flesh, with golden yellow suffusions. A Rose that is admired by everyone. 1-yr. 25c; 2-yr. 75c.

GENERAL JACQUEMINOT (H.P.)—“The most famous Rose in the country.” Strong, vigorous grower entirely hardy. Brilliant shining crimson. 1-year, 25c; 2-year 70c.

GLOIRE LYONNAISE (H.P.)—A pale shade of chamois or salmon yellow, deepest at center, some times passing to a rich, creamy-white finely tinted orange and fawn, 1-year 30c; 2-year 75c.

GROOTENDORST—Clustered flowers bright red, fringed and double. Heavy foliage, 1-yr. 35c; 2-year 80c.

HELEN GOULD (H.T.)—A delicate pink with pleasing pure Rose perfume. 1-yr. 25c; 2-yr. 65c.

HUGONIS, “GOLDEN ROSE FROM CHINA”—Intense canary yellow flowers, hollyhock shaped and produced in profusion. 1 year 25c; 2 year 75c.

NOTE—These Roses will be packed separate from other plants and sent by Parcel Post, Prepaid.

POT GROWN ROSES—CONTINUED

JON KHEER MOCK (H.T.)—(Illustrated on front cover)—The flowers are of large size and perfect form, of a deep imperial pink, the outside of the petals rose-white. Highly perfumed. 1-year 25c each; 2-year 75c.

J. B. CLARKE (H.P.)—Blossoms very large; color intense scarlet shaded crimson-maroon; very fragrant. As hardy as a lilac. 1-year 25c each; 2-year 70c.

Premier

JUBILEE (H.P.)—Immense, globular, bold flowers of glowing velvety crimson, with shadings of maroon. A grand Rose from every point of view. Price, 1-year, 25c each; 2-year 70c.

KAISERIN AUGUSTA VICTORIA (H.T.)—The best white Rose in the world. It is a continuous bloomer; shows no center when fully open; color snowy white. 1-year plants, 25c; 2-year 70c.

KILLARNEY (H.T.)—Remarkable for the size of its intensely fragrant, brilliant sparkling pink flowers. 1-year, 25c each; 2-year 75c.

LADY ALICE STANLEY (H.T.)—The blooms are a beautiful shade of coral rose, the inside of the petals shading to flesh pink, with deeper flushes 1-year 25c; 2-year, 70c.

LADY HILLINGTON—(T) (Illustrated on front cover)—A rich shade of yellow which does not easily fade. 1-year 25c; 2-year 75c each.

LADY MARY WARD—Color, rich orange, shaded deeper apricot-orange, with a decided metallic veining, the greatest novelty color yet seen in Roses. 1-yr. 25c; each; 2-yr. 75c.

LADY PIERRE (H.T.)—(Illustrated on front cover)—Full flowers; free blooming. Lovely apricot yellow in color. A grand Rose in every respect. 1-yr. 25c each; 2-year, 75c.

LADY PLYMOUTH (T)—A most distinct Rose of ivory cream, very faintly flushed pink. Price, 1-year plants, 25c each; 2-year plants, 70c each.

LAURENT CARLE (H.T.)—Brilliant velvety carmine with long stems, opening into large flowers of perfect form and fullness. An extremely vigorous grower of erect branching habit, with splendid dark green foliage. 1-yr. 25c; 2-yr. 70c.

MADAM BUTTERFLY (Illustrated on front cover)—Color is a harmony of pink, apricot and gold. The flowers resemble Ophelia in form. This Rose is largely grown for cut-flowers and keeps well when cut. Fine for bedding, for if kept well cultivated and in good growing condition it will produce flowers almost continuously all summer and until frost. 1 year 25c; 2 year, 75c.

LOS ANGELES (H.T.) (Illustrated on front cover)—A Rose of unusual beauty of coloring, being a luminous flame-pink toned with coral and shaded with translucent gold at the base of petals. The flowers are perfect in form and borne erect on strong, branching stems. 1 yr. 25c each; 2 yr. 75c.

MRS. AARON WARD (H.T.) (Illustrated on front cover)—The bloom of this variety is of a most pleasing and attractive shade—Indian-yellow, washed with salmon-gold. "Everybody's Rose." 1-year 25c; 2-year 75c.

MRS. GEO. SHAWYER—Buds are large and of a brilliant shade of pink. Fine for bedding. 1-yr. 25c each; 2-yr. 70c.

MADAM PLANTIER—'Especially valuable for cemetery planting.' A white Rose admirably adapted to cemeteries or hedge plantings. 1-year 25c; 2-year 65c each.

MADAME MASSON—Velvety crimson with fiery center. Fragrant. It grows robust and compact. 1-year 25c each; 2-year 70c.

MARSHALL P. WILDER—A vigorous grower with handsome foliage; free and perpetual bloomer; color brilliant crimson shaded scarlet; very large of exquisite form, with large smooth petals, slightly reflexed on the edges. 1-year 25c each; 2-year 70c each.

NATIONAL EMBLEM (H.T.)—Unmatched in its velvety richness. Could be well termed the "Velvet Rose." Dazzling crimson in color and delightfully sweet-scented. 1-year 25c each; 2-year 70c.

OPHELIA (H.T.)—Salmon-flesh color, shaded with rose. Large flowers, long stems, fine for cutting. 1-year plants 25c each; 2-year 70c.

PINK DRUSCHKI—Pink form of the popular white Rose Frau Karl Druschki. The rosy-pink blooms are highly perfumed. 1-year, 30c each; 2-year 85c each.

PREMIER—Truly a big Rose that is ideal among the ever-blooming varieties. Large broad-petaled pink blooms. Deliciously fragrant. 1-yr. 25c; 2-yr. 70c each.

PAUL NEYRON—Paul Neyron has the distinction of producing the largest of Roses. Color, clear pink, shading to rose—most beautiful in the massiveness of the blossoms. Fragrant with mild touch of apple-blossoms. Strong and vigorous grower. 1-yr. 25c each; 2-yr. 70c.

RED LETTER DAY (H.T.)—An exceedingly beautiful Rose of infinite charm. Its velvety brilliant glowing scarlet or crimson buds and fully opened cactus-like flowers never fade. 1-year 25c; 2-yr. 70c.

RED RADIANCE (H.T.)—One of the finest of the cut flower type. Flowers are brilliant carmine-red, a color of wonderful brightness and charm, and a color that never fades. 1-yr. 25c; 2-year 70c.

EASY WAY TO GROW BEAUTIFUL PLANTS

PLANT one of the Plantabbs in each pot about every two weeks and you'll have the finest flowers you ever grew.

Plantabbs are small, clean, quickly dissolving tablets without odor. Highly concentrated form of nitrogen, ammonia, phosphoric acid and potash in proper balance. Especially good inside where smelly fertilizer cannot be used, but equally effective on roses and other garden flowers.

Everyone who tries Fulton's Plantabbs praises them.

30 Tablets \$2.00; 75 Tablets 50c;
200 Tablets \$1.00; 1000 Tablets \$3.50.

FULTON'S
PLANTABBS
ODORLESS PLANT FOOD TABLETS

POT GROWN ROSES—Continued)

RHEA REID (H.T.)—The reddest of red Roses. Extra large; wonderful foliage; strong grower. 1-year 25c each; 2-year 70c.

ROBIN HOOD (H.T.)—One of the best dark reds. Grand grower. Rosy scarlet flowers freely produced New. 1-year 25c each; 2-year 70c.

SUNBURST (H.T.) (Illustrated on front cover)—Very striking flowers of rich yellow, with orange center. Perfect both in bud and bloom. 1-year 25c each; 2-year 75c.

SENSATION (H.T.) (Illustrated on front cover)—This rose is all that the name implies. It has enormous scarlet crimson blooms of fine deep form. The buds are long pointed and the open flower beautiful, has 30 to 35 petals of great size and substance. Stems long jointed and strong and has beautiful foliage. 1-year plants 25c; 2-year 75c each.

ULRICH BRUNNER—Considered one of the finest Roses in existence. Color, cherry red. A seedling of Paul Neyron from which it derives its immense size. Intensely fragrant. 1-year 25c; 2-year 70c.

WHITE KILLARNEY (H.T.)—One of the most exquisite white Roses grown. Strong and upright. Deep bronzy-green foliage. 1-year 25c each; 2-year 70c each.

WHITE MAMAN COCHET (T)—Very large and beautifully formed in bud and bloom; pure waxy-white under glass, taking on a faint pink flush out of doors which enhances its beauty. Vigorous and produces abundantly for cutting. 1-year 20c each; 2-year 75c.

THE FOUR NEAREST BLACK ROSES

BLACK PRINCE—Deepest blackish crimson, with pronounced maroon shades. A very distinct coloring. 1-year 28c; 2-year 70c.

GLOIRE DE BRUXELLES—Velvety crimson. Almost black. Best of all. 1-yr. 30c; 2-yr. 75c.

HIS MAJESTY—Deep vermilion. Highly perfumed and highly recommended. 1-year 28c; 2-year 70c.

PRINCE CAMILLE DE ROHAN—One of the darkest of Roses, blood red and maroon. 1-year 30c; 2-year 75c.

SPECIAL OFFER—The 4 in. 1-year plants 95c; the 4 in. 2-year plants \$2.50.

HARDY CLIMBING ROSES

AMERICAN PILLAR—Its great mass of bloom fairly covers the bush. Flowers measure three to five inches across. A beautiful Rose—highly recommended. Never troubled with insects. 1-year 22c each; 2-year plants 55c.

BLUE RAMBLER—Magenta blue in color. A perpetual source of wonder. Absolutely different from any other rose. 1-year 25c; 2 year 60c.

CLIMBING AMERICAN BEAUTY—Large glowing red; fragrant; very hardy. Has all the good qualities of American Beauty with the addition of the climbing habit. Unexcelled as a porch or trellis cover. Price 1-year, 24c each; 2 year 70c.

A Hedge of Rambler Roses

CLIMBING PINK AMERICAN BEAUTY (Christine Wright)—Strong climbing habit, large heavy dark green foliage; immune to disease. Flowers are 3¼ to 4 inches in diameter, borne singly and in clusters. Color bright wild-rose pink. 1-year 24c each; 2 year 65c each.

DOROTHY PERKINS—A wonderful fast-growing shell-pink climber. Cluster flowering. 1-year 25c; 2 year 70c.

DR. W. VAN FLEET—“Flowers over four inches across.” Color a delicate shade of flesh pink, deepening to rosy-flesh in the center. Stems 12 to 18 inches in length. A peer among climbers. Don't fail to plant this one. 1-year, 25c each; 2 year 70c.

EXCELSA—Bright crimson flowers borne in clusters of from twenty to forty blooms, almost concealing the foliage. The best of the red cluster flowering climbers. 1-year 25c; 2 year 65c.

HARDY MARECHAL NIEL (Gardenia)—There is an unlimited demand for this wonderful Rose, which produces a mass of fragrant, golden yellow flowers. They are of globular shape; large, and double. Has grown over twenty feet in a season. Requires little or no care. 1-year, 24c each; 2 year 70c.

PAULS SCARLET CLIMBER—The flowers of this superb Rose are vivid scarlet, shaded with bright crimson, and are produced in double, borne on good stems. 1-yr., 25c each; 2 year 70c.

SHOWER OF GOLD—Color deep golden yellow with orange shadings. Beautiful metallic foliage. Contrasted with a pink or red Rose, it is very showy. 1-year, 24c; 2 year plants, 70c.

SILVER MOON—Flowers run four inches and over in diameter, clear silvery white in color, petals of great substance and beautifully cupped. Long stems. Foliage immune from mildew. 1-year 25c each; 2 year 75c.

THOUSAND BEAUTIES—A single cluster of flowers is a whole bouquet in itself. The colors run from delicate balsam or tender rose, with white, yellow and various other tints showing. Few thorns. Very hardy. 1-yr. 24c; 2-year 65c.

WHITE DOROTHY PERKINS—Best hardy white cluster-flowering climbing Rose grown. A splendid companion for Dorothy Perkins blooming at the same time. 1-year 24c each; 2 year 60c.

DWARF EVERBLOOMING BUSH POLYANTHA ROSES

BABY DOLL—Golden yellow, tipped with cerise. The “sweetheart” Rose. Excellent for both summer and winter blooming. 1-year 25c each; 2 yr. 70c.

BABY RAMBLER—It forms compact bushes, covered with clusters of rich cherry-red flowers throughout the season. 1-year, 25c each; 2 year 70c.

ELLEN POULSON—Comparatively new. Rich dark pink flowers borne in profusion. A continuous bloomer. Full flowers sweetly scented. 1 year, 25c each; 2 year 70c.

ERNA TESCHENDORFF—Color brilliant scarlet red and is considered the best red among the type; constant flowering. 1-year 25c each; 2 year 70c.

ORLEANS—Deep cerise or geranium pink, with center of pure white. The showiest of the bush Roses. 1-year 25c each; 2 year 70c.

WHITE BABY RAMBLER—Flowering trusses produce as many as one hundred blooms and buds and form a striking mass of flowers. Pure white. 1-year, 25c each; 2 year 70c.

SPECIAL OFFER—1 each of above 6 Polyantha or Dwarf Everblooming Bush Roses. 1-year for \$1.32; 6 plants 2-years old for \$3.62.

SPECIAL OFFER

Any 3, 1-yr. Roses on this page priced at 22c for 57c; any 3, 1-yr. at 24c; for 62c; any 3 at 26c for 68c; any 3 at 28c for 72c.

Any 3, 2-yr. Roses on this page priced at 55c for \$1.32; any 3, 2-yr. at 60c for \$1.55; any 3 at 65c for \$1.68; any 3 at 70c for \$1.80; any 3 at 75c for \$1.92.

Hardy Flowering Shrubs

BEAUTIFY YOUR HOME GROUNDS AND INCREASE
PROPERTY VALUE

There is no home or farm in the whole country which cannot be improved in appearance and enhanced in value by the plantings of appropriate trees, shrubs, and plants.

By a proper selection from the varieties listed on the following pages, the home maker can have interesting specimens in their most perfect state, interesting to himself and the passerby at all times of the year.

(If Desired by Parcel Post, Add 10c Extra)

ALMOND

DOUBLE FLOWERING—Spring flowering shrubs, in full bloom before the leaves appear. Their growth is dwarf, bushy, and compact; slender branched; when in bloom completely hidden by beautiful, double flowers of rose or white, snuggling tight to the twigs. Double White and Double Pink, 2 to 3 ft., 90c each, 10 for \$8.00.

ALTHEA

ALTHEA, ROSE OF SHARON—Grows 8 to 10 ft. high, resembling small flowering tree; if planted closely together they make a good flowering hedge. Blossoms late in the fall. A number of colors, 60c each.

NEW BEAUTY BUSH

(Kolwizia Amabilis)

An exceedingly handsome ornamental shrub which has come to us from China. It grows 6 to 9 feet tall, with the inner stems erect or ascending and the outer ones arching to the ground, the whole plant forming a dome-shaped mass. The flowers are produced along the entire length of the branches in clusters at the ends of short leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow-brown on the lower throat and lip. The flowers are borne in such profusion that the bush is one cloud of delicate pink. The graceful habit of the plant, its year round beauty in foliage and habit, its free-flowering qualities and pleasing color, combined with perfect hardiness, make this one of the most beautiful and useful shrubs. 80c each.

BUDDLEIA

BUTTERFLY BUSH (Summer Lilac)—One of the most admired and sought after shrubs in the trade. Of quick bushy growth; when the lovely bloom spikes appear in July, the shrub, which had probably died down nearly to the ground during the winter, is now a perfect specimen of about five feet; radiating a delightful perfume and glowing with the tints and flower shapes of the Spring lilacs. 50c each; 10 for \$4.50. (See illustration.)

Deutzia, Pride of Rochester

Weigela

Butterfly Bush

BARBERRY

JAPANESE—See illustration and prices on inside front cover

THUNBERGI ATROPURPUREA (The New Red-Leaved Japanese Barberry)—Similar to Barberry Thunbergi; foliage a bronzy red color, which turns to a fiery red in autumn. Excellent for contrast in the shrubbery border; hardy. One year plants each, 60c.

DEUTZIA

GRACILIS—A dwarf variety covered with a profusion of white flowers in June. Fine for dwarf border effect. 18 inch plants, 70c each.

PRIDE OF ROCHESTER—Grows 6 to 8 feet high, blooms in early spring with large, double white flowers. A distinct and valuable variety, 60c each.

DIERVILLAS WEIGELA

CANDIDA WEIGELA—This is the very best of all the white flowering Weigelas. A strong, upright erect grower; flowers pure white and produced in great profusion in June and continues to bloom throughout the entire summer. 80c

EVA RATHKE WEIGELA—A charming new variety; flowers brilliant crimson; a beautiful distinct clear shade; flowers twice in one season 18 to 24 inch plants, 90c each.

ROSEA WEIGELA—A hardy and beautiful shrub bearing in May a profusion of rose colored flowers, 70c each.

VARIEGATED WEIGELA—Fine, variegated foliage and lasts the entire season; contrasts finely with its rose-colored flowers. 80c each.

ELEAGNUS OLEASTER

SILVER THORN (E. Longipes)—Grows 5 to 8 ft. high, of bushy habits. Foliage dark green above with silver beneath, very showy. Blossoms in April or May. Flowers are creamy white, followed by edible fruit, delicious for sauces. Fruit ripens in July, 70c each.

FORSYTHIA

HYBRID GOLDEN BELL—Grows 8 to 10 ft. high with slender, arching branches. Foliage lustrous dark green, blooms very early in the spring, often before the snow is off the ground. One of the most showy plants in cultivation. 60c each.

**DON'T MISS BARGAIN OFFER OF SMALL
SHRUBS ON PAGE 2.**

These are exceptional bargains of surplus plants. Worth double the amount we ask for them.

Japan Snowball

SHRUBS—(Continued) HYDRANGEA

HARDY (*H. Paniculata Grandiflora*)—A beautiful, tall shrub; foliage of bright shiny green; the flowers are borne in August and September in huge panicles from 8 to 12 inches long. Beautiful as a border or can be grown in tree form. Bush plants, 18-24 inches. 60c; 10 for \$5.00; Tree form, 2 to 3 ft. stem, \$1.00.

ARBORESCENS ALBA GRANDIFLORA—(The Snowball or Everblooming Hydrangea) or (Hills of Snow)—Flowers borne in panicles of pyramidal shape from 8 to 10 in., in diameter and 8 to 10 in. long. White flowers from June to October. 60c each, 10 for \$5.50.

HONEYSUCKLE

BUSH TARTARIAN HONEYSUCKLE (*L. Tartarica*)—Grows 8 to 10 ft., with numerous branches; bright green; blooms in late spring with white or pink flowers. 60c each, 10 for \$5.50.

LILAC

COMMON LILAC—Grows up to 25 ft. in height; upright habits; blossoms in May with dense fragrance. White or purple, 2 to 3 ft. plants, \$1.10 each.

DOUBLE FRENCH LILAC—Are more dwarf than the single flower kinds; the flowers last longer and are larger and double, \$1.50 each.

SPIREA

(By parcel post, 10c extra)

BRIDAL WREATH (*Prunifolia*)—Grows 5 to 7 feet tall; foliage glossy green, orange in autumn; blossoms cover the entire length of the graceful arching branches. 2 to 3 feet, 80c each.

ANTHONY WATERER—Dark crimson, flowers all summer. One of the finest shrubs, 18 to 24 inches, 60c.

THUNBERG'S SPIREA—Grows to 5 feet high, with numerous slender branches, forming a dense feathery bush. Pure white flowers. 18 to 24 inches, 70c each.

VAN HOUTTE'S SPIREA—Grows 5 to 6 feet high, spreading branches; foliage lustrous green blossoms in spring with large and showy flowers. Bushy 2-3 ft. plants 40c each; 10 for \$3.50; 100 for \$30.00.

See Special Prices on Spiraea for hedges. Page 10.

PRIVET LIGUSTRUM

HEDGE PLANTS—For full description see page 10.

PHILADELPHUS

If desired sent by parcel post add 10c extra.

COMMON MOCK ORANGE OR SYRINGA—Grows 8 to 10 feet high with upright or arching branches; foliage bright green; blossoms in May with great quantities of creamy white flowers. 60c each.

AUREA GOLDEN SYRINGA—A new gold leaf shrub of delicate growth and beauty. It is sufficiently free to make it very valuable for clumps and hedges. 18 to 24 inch bushy plants, 90c each.

NEW PHILADELPHUS VIRGINALIS—This latest addition to the Mock Orange family is going like wild fire. It will grow 5 or 6 feet tall and if you have a spot that needs such a plant, you will find it a worthwhile investment. Being medium tall and of compact habit, it will fit in most anywhere. It is a profuse bloomer; flowers are unusually large and fragrant. 18-24 in. plants 70c each.

PYRUS JAPONICA—JAPAN QUINCE

P. JAPONICA RUBRA (Scarlet Japan Quince)—Especially well adapted for hedges and ornamental shrubbery. Its beautiful red flowers and rich green foliage make a very charming effect. 18-24 inch, 60c each.

VAR. ALBA (White Japan Quince)—Flowers slightly tinged with pink. A very beautiful shrub. 60c each.

SAMBUCUS

GOLDEN ELDER (*S. Nigra Aurea*)—Similar to the American, except the foliage is an attractive golden color. Bears large crops of Elderberries. 70c each.

SNOWBALL VIBURNUM

VIBURNUM PLICATUM (Japan Snowball)—A rare and exceedingly beautiful species of Japan; flowers in large, globular heads; pure white, hanging long on the bush; a very choice and desirable shrub. Blooms in May. \$1.00 each. See illustration.

VIBURNUM OPULUS STERILIS (Common Snowball)—Grows 6 to 8 feet high, the old-fashioned Snowball; its large globular clusters of pure white flowers are produced in May and June, and make a very attractive appearance. 90c each.

SNOWBERRY SYMPHORICARPUS

RACEMOSUS (White)—Small, rose-colored flowers in June and July, followed by large clustered, milk-white fruits, which remain far into winter. The combination of pink flowers and white berries on the same twig is charming. July and August. 70c each.

VULGARIS (Red Indian Currant)—A low growing, graceful shrub. Its fruits are red, and the smaller red berries cluster in thick ropes along the weighted down stems. August. 60c each.

See Special Offer of Smaller Grade of Shrubs on page 2.

Philadelphus

Chinese Cinnamon Vines

"Dioscorea Batatas"—Headquarters Stock

Cinnamon Vines are the most desirable, easiest grown climbers in the world. They are from China the land of wonders. Their abundant blossoms perfume the air for a long distance. No words can describe the delicious fragrance. Perfectly hardy—thriving in all soils, in sun or shade, wet or dry. No insects, blight or disease of any kind ever troubles them. In cold sections the tubers should be lifted and stored in a cool dry place through the winter.

They will quickly climb 30 feet or more, and surround your windows and cover your porches, walks, etc., with a mass of vines—covered with pretty heart-shaped leaves and a profusion of dainty white, sweet-scented flowers, making them perfect "Bowers of Beauty." No lover of the beautiful should miss planting Cinnamon Vines. They have a charm unknown to all other climbers.

CHINESE CINNAMON VINES—Strong tubers. 15c each, 4 for 50c. Do not fail to plant this grand climber.

READ THESE TESTIMONIALS—COULD FILL PAGES

From Prof. W. H. Morse, Agricultural Chemist, Hartford, Conn.—"Your Cinnamon Vines were the marvel of the city. They were more wonderful, more pleasing and more fascinating than ever. Their sweet perfume captivates every heart."

From Lydia and M. J. Clarkson—Authors of "Art Studies."—"No Vines ever give us so much continued pleasure. Their growth is truly phenomenal. Their handsome foliage and fragrant blossoms commend them to every lover of flowers. If their merits were more widely known you would be overwhelmed with orders."

Ornamental Hedges

Not many years ago the only hedges to be seen were those used for defense or defining boundaries, but today they are planted extensively for ornament. Many beautiful effects are now possible, and it is needless to say that these fences of living green beautify our homes and are rapidly supplanting the old fashioned picket and iron fences. The most widely planted hedges are the California Privet and Barberry Thunbergii (illustrated inside back cover). Other shrubs that make good hedges include Spirea Van Houttei, shown on this page.

BARBERRY (Thunbergii)—A beautiful variety with small foliage, assuming the most varied tints of coloring in the autumn. See illustration and prices inside back cover.

HONEY LOCUST—12 to 18 inches, \$5.00 per 100.

PRIVET, AMOOR RIVER—Very similar to California Privet, but much hardier. Will stand the coldest winters. 12 to 18 inches. 10 for \$1.20; 100 for \$8.00.

PRIVET, IBOTA—This variety of Privet is much hardier than the California and will withstand the severest winter when the California Privet will kill out. 12 to 18 inches, 10 for \$1.20; 100 for \$8.00.

PRIVET, CALIFORNIA—See illustration and prices inside back cover.

RHAMNUS CATHARTICUS (Buckthorn)—A hardy ornamental shrub or small tree, growing to about twelve feet in height, and usually thorny. The inconspicuous greenish flowers appear in auxiliary clusters shortly after the leaves and are followed by black berries. 1½ to 2 feet, 25c each; 10 for \$2.00; 100 for \$17.00.

SPIREA VAN HOUTTEI—The grandest of all the white Spireas; it is of compact habit and a beautiful ornamental hedge. The flowers are flat clusters usually an inch or more across, produced on spreading pendulant branches often drooping to the ground. In full bloom they are a mass of white. 2 to 3 ft. plants, 10 for \$3.50, 100 for \$30.00; 18 to 24 inch plants, 10 for \$2.50; 100 for \$20.00.

Special prices on larger quantities.

Spirea Van Houttei

HERE IS THE QUEEN OF ALL THE FLOWERING SHRUBS, SPIREA VAN HOUTTEI—And it makes one of the best ornamental hedges. What could be nicer than a dividing fence between properties or along drive-ways than this beautiful shrub? See description and prices above. Easy to grow.

New York, May 1929
F. W. Brow Nurseries:

Thanks for the lovely shrubs just received in fine condition. Enclosed you will find another order and check for \$22.70 to cover same.

C. W. C.

HARDY CLIMBING VINES

Vines always add grace and beauty. Some are prized for the color and fragrance of their flowers while others are valuable for covering brick or stone walls. Vines rank as the most beautiful plants for training on fences, old trees and over porches.

Wistaria

AMPELOPSIS

AMERICAN IVY OR VIRGINIA CREEPER — The well known native vine with five-parted leaves that change to rich crimson in autumn; the berries are blue black. Very rapid grower and entirely hardy. One of the finest for covering walls, verandas or trunks of trees. 50c each, 10 for \$4.50.

BOSTON IVY (A. Veitchii) — A beautiful hardy Japanese species. Leaves overlap one another forming a dense sheet of green. Grows rapid and clings firmly to the smoothest surface; the foliage is very handsome in summer and changes to scarlet in autumn. 60c each, 10 for \$5.00.

ARISTOLOCHIA

DUTCHMAN'S PIPE (A. Sipho) — (See illustration) — A magnificent native vine of climbing habit and rapid growth, with magnificent light green foliage 10 to 12 inches in diameter and curious pipe-shaped yellowish brown flowers, \$1.10 each.

CLEMATIS

SWEET SCENTED JAPAN CLEMATIS (C. Paniculata) (See illustration) — Flowers are pure white, medium size, fragrant and borne in immense sheets in September. Foliage is clean and glossy, grows from 25 to 30 feet in a single season and should be cut back to the ground each spring. 50c each, 10 for \$4.50.

Dutchman's Pipe

Clematis Paniculata

C. JACKMANNI — Intense violet-purple, flowers are 4 to 6 inches in diameter when fully expanded; remarkable for its rich, velvety appearance; an abundant and successive bloomer. \$1.00 each.

C. MADAME EDOUARD ANDRE — Color a distinct crimson red, flowers very large and velvety; an abundant and successive bloomer. \$1.00 each.

ENGLISH IVY — A popular vine having deep green and glossy foliage and unexcelled for covering walls in shady and cool places. Can be sheared into edging for walks or covering for graves. Price of good, strong vines, 75c each; 10 for \$6.50.

LONICERA

JAPAN HONEYSUCKLE, HALL'S (Lonicera Halliana) — Blooms all summer, flowers are white, almost evergreen. 50c each, 10 for \$4.50. See illustration.

JAPAN GOLDEN LEAVED HONEYSUCKLE — A handsome and desirable variety. Flowers are creamy white and form festoons and masses. 80c each, 10 for \$7.50.

TRUMPET VINE (Bignonia) — (See illustration) — Popular variety with showy, orange-scarlet flowers and evergreen leaves. Recommended for arbors, rocks, brightening of hedges or over old trees or logs. A strong, high grower. Price: 60c each; \$5.50 per 10.

WISTARIA

CHINESE PURPLE WISTARIA (W. Sinesis) — Rapid growing. 15 to 20 feet in a season; long pendulous clusters of pale blue flowers in May, June and autumn, \$1.00 each.

W. CHINESE WHITE — Same as above except that flowers are pure white, \$1.00 each. See illustration.

HARDY VINE COLLECTION

Hardy Perennials and Old Fashioned Flowers

It is so much easier and quicker to have an old fashioned flower garden when plants can be secured instead of seeds. Our plants are strong and thrifty, making the flower bed an assured success from the time it is set until the blooms begin to appear.

ANEMONE (Japanese Windflower) — Fine white flowers, single with yellow stamens, graceful and decorative. 30c each, 10 for \$2.50.

AQUILEGIA (Columbine) — Old favorite spring and early summer flowering plants that succeed in any ordinary garden soil. 25c; 10 for \$2.00.

BLEEDING HEART (Dicentra)—An old favorite. Flowers heart-shaped in long, drooping racemes, rose color. Very fine for border plants. Price: 80c each; \$6.50 per 10.

Columbine

CAMPANULA MEDIUM (Canterbury Bells)—An old-time favorite; shades of pink, purple and white. 30c each; 10 for \$2.50.

CHRYSANTHEMUMS—Beautiful hardy sorts, indispensable in the hardy border. Their bright colors give life to the garden when other plants have been destroyed by frost. 30c each, 10 for \$2.50.

COREOPSIS, LANCEOLATA (Tick Seed)—The flowers are a rich golden yellow of graceful form and invaluable for cutting; blooms throughout summer and autumn. 30c each, 10 for \$2.50.

DAISY, SHASTA—Large snowy white flowers 4 inches across; in bloom all summer; a good cut flower variety. Every garden has room for this well known perennial. 25c each; 10 for \$2.00.

DELPHINIUMS (Hardy Larkspur)—These are deservedly one of the most popular subjects in the hardy border; long flower sprays in all shades of blue. 25c each; 10 for \$2.00.

DIGITALIS (Foxglove)—Old fashioned dignified and stately during their period of flowering, dominating the whole garden. Bold masses of leaves and flower spikes. White, purple and rose flowers. June and July. 30c each; 10 for \$2.50.

GAILLARDIA or BLANKET FLOWER—Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or any soil. One mass of bloom from June till autumn. The gorgeous flowers, 2 or 3 in., in diameter, dark red, brown in center with bands of crimson-orange and vermilion, are borne on stems 18 to 24 in. long. Price: 25c each; \$2.00 per 10.

Gaillardia

ering through a long season; they will continue in good condition and flower freely for many years without attention. 30c each; 10 for \$2.50.

BRIDESMAID—White, crimson eye.

CHAMPS ELYSEE—Fine rich crimson.

ECLAIREUR—Bright carmine with light halo. Large flower.

MISS LINGARD—The best phlox in cultivation. Immense heads of pure white flowers in June, September and October.

MRS. CHARLES DORR—Beautiful shade of lavender.

MRS. JENKINS—An early and free bloomer. One of best, pure white.

R. F. STRUTHERS—Bright rosy carmine with scarlet eye.

THOR—Salmon pink overlaid with scarlet. Very large trusses.

Delphiniums

at the base of the petals and a great mass of bluish-black stamens in the heart of the cup-shaped flowers, dazzling as a flame. No other blossom is so bizarre in effect, lighting up the garden in such tropical, barbaric splendor. Price: 30c each; \$2.50 per 10.

SWEET WILLIAM (Dianthus)—Popular garden flower showing a wonderful array of vivid colors in fancy patterns. Perfectly hardy. Price: 25c each; \$2.00 per 10.

HARDY CARNATION

GARDEN PINKS—A fine collection in various colors. The good old fashioned "Pinks" so frequently found in Grandmother's garden. Of dwarf habit. The foliage is attractive throughout the year and they are especially useful for edging borders. 30c each; 10 for \$2.50.

PHLOX

HARDY PERENNIALS—Among hardy perennial plants no class is of more importance than the Phlox succeeding in almost any soil and position and flow-

Coreopsis

GYPHOPHILA (Baby's Breath)—G. Paniculata—A beautiful, old fashioned plant, possessing a grace not found in any other perennial. When in bloom, during August and September, it forms a symmetrical mass 2 or 3 feet in height of minute, pure white flowers, forming a gauze-like appearance. When cut it is exquisite in connection with other flowers. Will thrive in any soil in a sunny position. Should be in every garden. Price: 35c each, \$3.00 per 10.

HOLLYHOCKS—Few hardy plants combine as many good qualities as the Hollyhock. For planting in rows or groups on the lawn, or for interspersing among shrubbery, they are invaluable. 25c each; 10 for \$2.00.

IRIS

See Special Offer on Back Cover.

ORIENTAL POPPY—The flowers are very large, and of a brilliant orange-scarlet with large black blotches in the heart of the petals and a great mass of bluish-black stamens in the heart of the cup-shaped flowers, dazzling as a flame. No other blossom is so bizarre in effect, lighting up the garden in such tropical, barbaric splendor. Price: 30c each; \$2.50 per 10.

Shasta Daisy

Shade and Ornamental Trees

By all means plant shade trees. They are effective ornamentally from the time they are set out and soon their spreading growth will create a shelter for the home that will be a pride and joy with the passing years. Contrast the heat and glare of down town streets on a hot summer day with the inviting coolness and beauty of a well shaded residential avenue. Shade trees make the difference and the nominal outlay for planting is returned a hundredfold in greater property value and the enjoyment of pleasant surroundings.

Planting the home is not expense, but a profitable investment. It pays dividends of satisfaction.

"It's Not a Home Until It's Planted."

AILANTHUS—TREE OF HEAVEN

A. GLANDULOSA—From Japan; a lofty growing tree, with long elegant, feathery foliage; free from all diseases and insects. One of the most distinct of ornamental trees, 6 to 8 ft., trees, \$1.50 each.

BIRCH—BETULA

BIRCH (Cut Leaved Weeping). See page 15.

EUROPEAN WHITE (Betula Alba)—A beautiful tree with white bark and spreading and pendulous branches. Very effective for landscape. 4 to 6 ft. trees, \$1.75.

CATALPA

CHINESE (C. Bungei)—(See illustration below)—A remarkable species forming a dense, round, umbrella like head; dome-shaped of great, soft, leathery leaves laid with shingle-like precision. Grafted on stems five to eight feet tall for border along drive, walk, or around a park where you do not desire tall trees. 5 ft., \$1.25 each; 2 trees, 5 ft., a nice matched pair for \$2.25; 6 ft., \$1.50 each. 2 trees 6 ft., a matched pair for \$2.75. Smaller trees are offered on page 2.

HARDY (C. Speciosa)—A variety that is very hardy and a rapid grower and is being exclusively planted for commercial purposes; has broad, deep green leaves and beautiful large blossoms. Valuable for planting in groves for growing poles, posts and railroad ties, 2 to 3 ft., trees 40c each; 6 to 8 ft. \$1.00 each, 10 for \$6.50.

Norway Maple

American Elm

THE FLOWERING CRAB MALUS

BECHTEL'S DOUBLE FLOWERING CRAB (P. Augustifolia)—Tree of medium size covered in the early spring with large beautiful flowers of a delicate pink color. One of the finest trees in cultivation and very attractive. Very decorative. 3 ft., plants, \$1.15 each.

ELM—ULMUS

AMERICAN—A magnificent tree growing 80 to 100 feet high with drooping and spreading branches. One of the fast growing and grand native trees. Makes a beautiful lawn or street tree, 6 to 8 ft. trees, \$1.40 each; 8-10 feet, \$1.65 each.

LINDEN—TILIA

AMERICAN BASSWOOD (Tilia Americana)—A large tree forming broad, round-topped crown. Leaves broadly oval, dark green on top and light beneath, turning yellow in autumn; creamy flowers in summer, and very attractive to the honey bee. A grand tree everywhere. 6 to 8 ft. \$1.75 each.

MAGNOLIA

CUCUMBER TREE (M. Acuminata)—A majestic, pyramidal tree growing to a height of 90 feet with large, bluish-green leaves 6 to 8 inches in length; the flowers are yellowish-white; the fruit when it is green resembles a cucumber. 3 to 4 ft. plants, \$2.60 each.

MAPLE—ACER

NORWAY MAPLE (A. Platanoides)—A very handsome tree attaining large proportions, its spreading branches forming a dense, round head. It is especially desirable for street or for lawn planting, and is used extensively. Has five lobe leaves, bright green, lighter underneath, and smooth on both surfaces, fading to yellow and gold. 4-6 feet, \$2.10; 6-8 ft., \$2.75 each.

BOX ELDER OR ASH LEAVED MAPLE (A. Negundo)—A rapidly growing tree with spreading branches which grow to good size. The leaves smaller than other maples. Frequently planted as an ornamental, but especially popular as a windbreak or for timber because very hardy, with-standing cold and drought. 5 to 6 ft., 80c; 6-8 ft., \$1.10 each.

SEE OUR SPECIAL BARGAIN OFFER ON 1 YEAR GRAFTED CATALPAS ON PAGE TWO.

Catalpa Bungei

ASK US FOR SPECIAL PRICES ON LARGE QUANTITIES ORNAMENTAL TREES—(Continued)

SOFT OR SILVER MAPLE (*A. Dasycarpum*)—A rapid growing tree of large size, irregular, rounded form; foliage bright green; for streets and parks; attains a greater height than the Norway, 4 to 6 ft., 60c; 6-8 ft., \$1.10 each; 8-10 ft. \$1.50 each.

WEIR'S CUT-LEAVED MAPLE (*A. Dasycarpum Wieri*)—A variety of silver-leaved and one of the most beautiful with cut or dissected foliage; of rapid growth, shoots slender and drooping; ranks among the best as an attractive lawn or street tree. 4 to 5 ft., \$1.10; 6-8 ft., \$1.60.

MOUNTAIN ASH—SORBUS

EUROPEAN MOUNTAIN ASH (Commonly called Rowan Tree)—A fine tree with dense and regular heads, covered from midsummer to winter with great clusters of bright scarlet berries. Is especially adapted to the northern regions. 6 to 8 ft., \$1.80.

POPLAR—POPULUS

CAROLINA POPLAR—A vigorous, healthy native tree of rapid growth, pyramidal in form, with large glossy leaves; valuable for park or street planting, 6 to 8 ft. trees, 70c each; 8 to 10 ft. trees, 80c each; 10 to 12 ft. trees, \$1.10 each.

LOMBARD POPLAR (*P. Fastigiata*)—Attaining height of 100 to 150 feet; well known for its erect, rapid growth and tall, spiry form; indispensable for landscape gardening to break the monotony of other trees, makes an effective screen to shut off any undesirable views. 6 to 8 ft. trees, 70c each; 8 to 10 ft., \$1.10 each; 10 to 12 ft., \$1.40.

PRUNUS

PRUNUS PISSARDI (Purple Leaved Plum)—A beautiful purple leaved tree of recent introduction. The branches are very dark purple; the leaves when first formed are rich crimson, changing to dark purple, and retains this beautiful color until they drop, late in autumn. 3 to 4 ft. trees, 90c each; 10 for \$8.00. Fine color effect on lawns or clump planting, 3 for \$2.50.

THORN—CRATAEGUS

DOUBLE WHITE THORN (*C. Oxyacantha var. Alba Flore Pleno*)—A small tree with spreading soil; this is the famous May Hawthorn of English spiny branches; very hardy and will thrive in a dry garden and is very beautiful; double white rose blossoms cover the tree when in bloom. 3 to 4 ft. \$2.60 each. Double Crimson, same price.

TULIP TREE—LIRIODENDRON

TULIP TREE (*L. Tulipifera*)—(See illustration)—A tall, pyramidal tree, rises to a great height and is clothed with a splendid foliage of large glossy leaves; large, tulip-shaped flowers are borne in the spring, greenish yellow and orange. One of the most distinguished tall trees. 6 to 8 ft., \$2.30.

Rose Tree of China
Prunus Triloba Flowering Plum

FRENCH PUSSY WILLOW

(See illustration on page 2)

THE ONLY OUTDOOR SHRUB GROWN FROM WHICH YOU CAN CUT BOUQUETS DURING THE WINTER MONTHS

See Special Offer on Page 2

NUT TREES

Plant your waste land to nut trees. Will thrive where other stock fails. The wood is exceedingly valuable and the nuts are always in demand.

BUTTERNUT—A fine native, rapid growing, lofty-spreading tree. Unique tropical appearance. Bears early. Price 5-6 ft., \$1.60 each.

ENGLISH WALNUT—One of the largest, most delicious meaty nuts; always in demand at a good price. Can generally be grown in any climate where peaches are grown. Price: 2-3 ft., \$1.60 each.

JAPAN WALNUT—Perfectly hardy, a rapid grower, handsome leaves, bears young and abundantly. One of the finest ornamental trees. Worthy of extensive planting. Price 3-4 ft., \$1.10 each; \$8.50 per 10.

FILBERT, ENGLISH—Of easiest culture, growing 6 to 7 feet high; entirely hardy; and one of the most profitable and satisfactory nuts to grow, succeeding on almost all soils, bearing early and abundantly; nuts nearly round, rich and of excellent flavor; valuable for desert. Price: 3-4 ft., \$1.30 each.

ROSE TREE OF CHINA

(See illustration)

(PRUNUS TRILOBA OR FLOWERING PLUM)

The most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the Spring, being literally covered with double rose-like pink flowers. As an ornament on the lawn or mixed with shrub or tree plantings it has few equals. The symmetrically formed graceful little tree grows to a height of about 8 feet. Hardy and easily grown. No lawn should be without at least one of these beautiful trees. The Rose-like blossoms make fine cut flowers.

**SPECIAL BARGAIN PRICE FOR CHOICE
LITTLE TREES 99c each; 3 for \$2.45.**

WEeping TREES

Much attention is now being given to this class of trees, and we place them separately for the convenience of our patrons. The superior grace and beauty of the weeping varieties render them especially adapted to yard, lawn or cemetery. No collection is complete without them; among ornamentals they have no superior and they should be used extensively.

BIRCH—BETULA

BIRCH, CUT-LEAVED WEEPING—Of wonderful grace and beauty. Tall, vigorous, with slender, drooping branches; foliage colors brilliant in fall, and its bare white trunk and branches are very beautiful in winter. 2 to 3 ft., \$1.50; 3-4 ft., \$1.75 each.

MULBERRY—MORUS

TEA'S WEEPING—A weeping variety grafted on stems of Russian mulberry. Forms a perfect umbrella shaped head with long, slender branches which droop to the ground parallel with the stem. Very beautiful and hardy. \$2.75 each.

WILLOW—SALIX

WISCONSIN (Weeping Willow)—A large tree with long drooping branches, similar to the Babylonica, but much hardier, 6 to 8 ft. \$1.60 each.

BABYLONICA (Weeping) — A well known and most graceful tree of large size. Its fresh, bright green tint and long wavy branches make it very attractive, 6 to 8 feet. \$1.60 each.

Weeping Cut-leaf Birch

EVERGREENS ARE BEAUTIFUL THE YEAR ROUND

Evergreens have become an important feature in landscape plantings. Beautiful green, silver and golden foliage strongly contrasting with the intense white of the winter snows give a touch of life to the lawn that would otherwise appear bleak if only the deciduous trees and shrubbery were used. The varieties we grow are hardy for these climates and we pack so that you will have certain success with your trees.

ARBORVITAE—THUJA

AMERICAN (T. Occidentalis)—A beautiful native bright green; yellowish-green beneath; valuable for screens and hedges. 10 to 12 inch, \$1.10 each; 12 to 18 inch, \$1.60 each; 18 to 24 inch, \$2.00 each.

GOLDEN (T. Orientalis, Aurea)—Broad, bushy, grower, with deep golden foliage; ornamental, 12 to 18 inches, \$3.25 each.

PYRAMIDAL (T. Occidentalis, Pyramidalis)—A compact and narrow pyramidal tree; its branches are short and densely clothed with bright green foliage; very formal and attractive and the narrowest and most columnar of arborvitae. 12 to 18 inches, \$2.00 each; 18 to 24 inches, \$2.50 each.

SIBERIAN (T. Occidentalis Siberica)—One of the best of the dwarf growing varieties; exceedingly hardy; keeping color well; growth compact and pyramidal; 12 to 18 in. \$2.50 each.

JUNIPER—JUNIPERUS

IRISH (J. Communis Hibernica)—A slender, columnar form with numerous upright branches; foliage glaucous green, 12 to 18 inches, \$2.00

COMPACT SAVIN (J. Sabina) Low, spreading tree, handsome foliage, very hardy. 18-24 in. plants, \$3.50.

PINE—PINUS

PINUS MUGHO (Dwarf Mountain Pine)—Very distinct leaves short, stiff, a little twisted and thickly distributed over the branches; does not grow tall, but spreads over the ground generally assuming a globular form; very dense, 18 inch, \$4.00 each.

SPRUCE—PICEA

EXCELSA (Norway Spruce)—A lofty tree, of perfect pyramidal form and as it gets age has fine graceful, pendulous branches; it is exceedingly picturesque and beautiful. One of the best evergreens for hedges and windbreaks. 12 to 18 in. \$1.00 each; 18 to 24 in. \$1.60.

COLORADO BLUE SPRUCE (Picea Pungens Glauca)—The original form of the famous Blue Spruce; foliage sometimes quite blue. A vigorous grower, hardy, making fine specimens. 12 to 18 inch plants, \$4.50 each; 18 to 24 inch, \$5.50; 2 to 3 ft., nice specimens, \$7.50.

ALL EVERGREENS ARE CAREFULLY BALLED AND BURLAPPED.

Colorado Blue Spruce

Irish Juniper

makes an excellent lawn tree. 12 to 18 in. \$2.50 each.

The Apple, the King of Fruits

The Apple is universally recognized as the most desirable fruit of the United States, because of its great variety of delicious flavors, nutritious qualities and nutritive value. Whether a commercial crop or for the satisfaction of the family, a well selected orchard of a few varieties is the most desirable investment that any land owner can place on his premises. Our trees are two years old. The same trees that the Agents ask more than double our prices for.

SUMMER VARIETIES

EARLY HARVEST—Medium to large; pale yellow; fine flavor. Tree moderate; erect grower and a good bearer. A beautiful and excellent variety for dessert and kitchen.

RED ASTRACHAN—Large, roundish; nearly covered with deep crimson; over-spread with a thick bloom; juicy, rich; acid. Cooking and eating variety. Aug.

YELLOW TRANSPARENT—Good size; clear white turning to pale yellow; flavor sub-acid; is highly prized for cooking and eating; a popular market variety. July, August.

FALL VARIETIES

DUCHESS OF OLDENBURG—Large size, roundish; streaked with red and yellow; flesh whitish; juicy flavor, sprightly, sub-acid; market variety. Tree a vigorous grower; very hardy; succeeds in northwest where many kinds fail. Aug., Sept., Oct.

FALL PIPPIN—Very large, roundish oblong, yellow; flesh tender and delicious. One of the most valuable varieties for table or market. Tree a free grower and a fine bearer. October-December.

FAMEUSE (Snow Apple)—Medium size; pale greenish yellow, mixed with stripes of red and splashes of red on shady side; flesh white, tender and juicy, slightly perfumed, sub-acid; extra good recommended for table, kitchen and market. Oct.-Nov.

GRAVENSTEIN—Large, rather flat; yellow with red stripes; beautiful and showy; flesh firm, tender and crisp, highly flavored; cooking and market. Recommended as a good fall variety.

TWENTY OUNCE (Cayuga Red Streak)—Very large, striped very showy; flesh fair quality, pleasant; sub-acid; excellent for baking; popular market kind. Tree good grower and fine bearer. Oct.-Jan.

WEALTHY—Medium size; roundish; smooth, nearly covered with dark red; very good; dessert; very profitable as a market sort. Tree good grower and productive. Oct.-Jan.

WINTER VARIETIES OF APPLES

BALDWIN—Medium size; conical; bright red; flesh is juicy, sub-acid; rich flavor; a great market variety of eastern states for cooking, dessert and market. Tree vigorous open head. Abundant crops, but does not bear young. November-March.

BANANA—Of medium size, smooth; easily polished; deep yellow; slight blush; flesh is solid, juicy; mild sub-acid has delicate banana perfume and flavor; very popular for dessert and market.

CORTLAND—(New variety developed by the New York State Experimental Station). A fine apple resulting from the cross pollinization of McIntosh and Ben Davis. Inheriting only the good qualities of each, the new apple has found additional good qualities of its own. The Cortland is a beautiful red apple, larger than the McIntosh, and matures a month later. A good keeper.

DELICIOUS (See illustration)—Flourishes well in every state of the Union. Bears annually; a great yielder, hangs well on trees. Trees are very thrifty long lived and are extremely hardy. Fruit very large, nearly covered with brilliant, dark red; flesh, fine grained, crisp, juicy, melting and delicious; splendid keeper and shipper; should be in every orchard.

FALLWATER (Tulpehocken)—Very large, handsome green, nearly covered with dull red; flesh juicy, crisp, sub-acid. Home use and local market. Tree a strong grower; very productive, even while young. November to March.

GRIMES GOLDEN—Medium size; regular; rich golden yellow; flesh firm, crisp, aromatic, rich, quality very best Top-notch in market. Tree hardy and productive; bears early; blossoms late in spring; frost seldom catches them. One of the best sorts. November to March.

JONATHAN (New Spitzenberg)—Medium size; roundish; yellow, nearly covered with red; flesh white, fine grained, juicy, tender and mild; a delicious and strictly dessert apple that always demands highest market prices. Seedling of Spitzenberg. Is a much better tree; vigorous and productive. November to April.

MCINTOSH (McIntosh Red)—Medium large; polished smooth; yellow, nearly covered with brilliant crimson; beautiful; flesh snow white, crisp, very tender, aromatic, sub-acid; very good quality. Resembles Fameuse type, but is larger and more hardy. Tree vigorous with spreading head; a good annual bearer; popular everywhere. November to February.

WINTER VARIETIES OF APPLES -- CONTINUED

NORTHERN SPY—Large; roundish; slightly conical, striped, with sunny side purplish-red; flesh white and tender, with mild, rich, spicy flavor. An old favorite and one of the best all-round apples grown. Tree is a strong, upright grower, head very compact and should be opened up by pruning to admit air and light. Dec.-June.

RHODE ISLAND GREENING—Large; greenish yellow; tender; juicy, rather acid but highly flavored; very popular, extra good cooker. An old standard sort. Tree vigorous and spreading; a heavy and constant bearer. December-March.

ROME BEAUTY—Large; round; mottled and striped in different shades of red; flesh yellowish, tender; juicy, sub-acid; recommended as a dessert and market variety. A good grower, blooms late, productive; especially recommended in the eastern states. November-February.

STAYMAN'S WINESAP—Medium size; roundish; greenish-yellow, red striped; flesh yellow, fine grained, crisp, juicy, aromatic; recommended for cooking and eating. Tree quick and vigorous grower, adapts itself to different soils and situations. November-February.

SPITZENBERG—The standard of excellence

for apple of the Baldwin class. Large, rich, yellow covered with bright red.

TOMPKINS KING (King of Tompkins County)—Very large; attracts attention by size; red; flesh yellowish, crisp and tender, sub-acid, of best quality; always in demand on market. Tree is a vigorous grower, good bearer and hardy. Nov.-Jan.

WOLF RIVER—Very large, handsome; red on greenish-yellow skin; flesh whitish, tinged with yellow, very firm, tender, juicy and of good quality; rather acid; market sort.

Rome Beauty

Whitney Crab Apple

WHITNEY—Large, averaging one and one-half to two inches; round, conical, smooth, glossy yellow, with red stripes; flesh firm, juicy and rich, almost sweet. August.

MULBERRIES

Fine trees, 5 to 6 feet high, \$1.75 each; \$15.00 for 10.

NEW AMERICAN—Largest of all the Mulberries. It bears heavy crops at three years old. The fruit is jet black and excellent quality. Tree a rapid grower, handsome form, making a very handsome shade tree for the park or lawn; they bear fruit continuously from May to August.

APRICOT TREES

2-year old trees, medium size, 70c; large size, 90c.

ALEXANDER (Russian)—Medium to small size; light orange flecked with red; flesh tender; juicy, sweet and good flavor; dessert and market. Tree hardy and productive.

MOORPARK—Very large; orange yellow with numerous specks and dots; flesh yellow sweet, juicy and rich, very good market and dessert. Tree is rather tender and fruit ripens unevenly. August.

Crab Apples For Jellies

Crab Apples are especially desirable in the colder sections where only a few varieties of apples can be successfully grown; but they succeed well in all climates and their fruit is very popular for preserves and jelly. Some sorts are excellent for eating. 2-yr old trees, 3 to 5 ft., 40c each; 4 to 6 ft. 50c each; 5 to 7 ft., 60c each.

MARTHA—Medium large, yellow with heavy blush of red; flesh fine grained, firm, juicy, sub-acid; recommended for market, dessert and cooking. Tree vigorous grower and very free from blight. September.

HYSLÖP—Large, round, conical; yellow, with heavy shadings of deep crimson and splashes of maroon with heavy blue bloom; flesh fine, firm, yellow, astringent; its high color always commands a fancy market price. September-October.

TRANSCENDENT—Medium large, oblate; golden yellow, with blush; flesh firm, crisp, yellowish, fine grained, very juicy and acid. Tree grows rapid and irregular. September.

Read some of the Testimonials printed in this catalog. They should convince you that we can serve you right. Full names can be supplied on request.

New American Mulberries

April 23rd, 1929

F. W. Brow Nurseries:—Received nursery stock in good condition, very much pleased with same.—O. F. S.

DWARF APPLES AND DWARF PEARS

DWARF APPLE trees commence bearing fruit the second year after planting and as they do not grow as large as standard trees, they are especially desirable for village or city gardens. The great advantage of these dwarf trees is that they bear fruit several years earlier, usually the first year after planting and produce more returns for a given space than standard trees. Heretofore city people have been obliged to buy all their apples because the size of their garden plot would not enable them to plant standard trees on account of the amount of space these standard trees required. There is no question as to the desirability of being able to go out into your own fruit garden and pick from trees of your own growing and eat it when in the freshest condition. These dwarf trees open up a new avenue to the people who have gardens of a limited size.

PRICES OF DWARF APPLES

2-year-old trees, ready to bear fruit, 75c each, 10 for \$7.00.

The varieties of Dwarf Apples we grow are; Duchess, Wealthy, Red Astrachan, Baldwin, McIntosh.

QUINCES

2-year-old trees, 70c each; large size, 80c

CHAMPION—Very large, greenish flesh cooks as tender as an apple and without hard spots or core; flavor delicate imparting an exquisite quince taste and odor to any fruit with which it is cooked. Trees are vigorous growers and bear heavy crops of superior fruit.

MEECH'S PROLIFIC—Large size; bright yellow, very fragrant, good flavor; one of the best; bears early and very productive.

ORANGE—Large, bright, golden yellow; fine, firm flesh and good flavor; one of the best for cooking. The most popular and extensively cultivated of the old varieties. October.

A two year dwarf tree bearing fruit

good for market and kitchen. Tree hardy and very productive, does well in all sections. Standard or dwarf. August.

SECKEL—Medium; yellow with crimson cheek, flesh is melting, sweet and aromatic; most exquisitely flavored pear known. Tree slow grower but hardy and healthy. September. This variety should be in every orchard, for there is a good market for the fruit and it brings a high price wherever offered for sale.

SHELDON—Medium size; yellow with richly shaded cheek; flesh a little coarse, melting juicy with a very brisk, vinous, flavor; of first quality. Tree vigorous, hardy and productive. October.

AUTUMN VARIETIES

ANJOU (Buerre d'Anjou)—Large; greenish shaded with russet-crimson; flesh is highly flavored, vinous and rich; dessert and market sort; keeps well until winter holidays, when it commands a high price. Tree hardy and productive and succeeds well in all sections. October-January.

DUCHESS (Duchess d'Angouleme)—Very large green and yellow, with russet; flesh very juicy; rich excellent flavor. An all around variety for dessert, cooking and market.

FLEMISH (Flemish Beauty)—Large; pale yellow, covered with light russet, turning reddish brown when ripe; flesh juicy, very sweet, rich and melting; recommended for extreme northern states.

KIEFFER—Medium large; yellow and crimson, with russet and brown; flesh firm and good when ripe; the Ben Davis of the pear family; when properly ripened is delicious. Tree vigorous, with healthy, dark green foliage; early bearer, very productive. October.

WINTER VARIETY

LAWRENCE—Medium; lemon yellow; flesh sweet, melting aromatic; recommended as one of the very best winter sorts. Tree hardy, healthy and productive. November-December.

BARGAIN PRICES OF PEAR TREES			
	Each	10	100
2 year old trees, 2½-3 ft.	\$0.40	\$3.50	\$25.00
2 year old trees, 4-5 ft.50	4.50	30.00
2 year old trees, 5-6 ft.60	5.50	40.00
2 year old trees, 6-7 ft.70	6.50	50.00

We have over fifty thousand fine trees and can more than please you.

Bartlett

THE DWARF PEAR tree, like the Dwarf Apple, bears fruit very early, does not grow so large a tree as the standard trees, consequently is valuable where space is a consideration. It is also valuable for commercial planting, being an ideal "filler" in orchards of standard pears or apples because of its early fruiting tendencies, and the little space required for its development. Although the tree is dwarf, the fruit is as large as that produced by standard trees.

PRICE OF DWARF PEARS

2 year old, ready to bear fruit, 75c each, 10 for \$7.00

The varieties we grow are Bartlett, Duchess d'Angouleme, Seckel, Clapp's Favorite.

PEARS

THE QUALITY FRUIT

The Pear is the most delicious of fruits on account of its fine, juicy texture, exquisite flavor and aroma. While some varieties do better if picked when partially ripe and finished indoors, yet the really enjoyable supply should come from the home orchard.

SUMMER VARIETY

BARTLETT—Large; rich yellow, beautiful blush next to the sun; buttery, very juicy and highly flavored; grown everywhere. A favorite market variety. Tree a strong grower; bears early and abundantly. Last of Aug. and early Sept.

CLAPP'S FAVORITE (Fay)—Large; pale lemon yellow with red cheek; flesh of fine texture, melting buttery, juicy, rich vinous flavor; good for market and kitchen. Tree hardy and very productive, does well in all sections. Standard or dwarf. August.

SECKEL—Medium; yellow with crimson cheek, flesh is melting, sweet and aromatic; most exquisitely flavored pear known. Tree slow grower but hardy and healthy. September. This variety should be in every orchard, for there is a good market for the fruit and it brings a high price wherever offered for sale.

SHELDON—Medium size; yellow with richly shaded cheek; flesh a little coarse, melting juicy with a very brisk, vinous, flavor; of first quality. Tree vigorous, hardy and productive. October.

Grow Our Choice Plums

The Plum, like a Pear, succeeds best in a rather heavy soil with some clay, and being generally free from disease is profitable. They should be gathered a few days ahead of use that they may develop their perfect flavor. For family use they especially do well in poultry yards, or where the hogs keep the ground free from fallen fruit. The varieties should be mixed.

PRICES OF PLUM TREES

	Each	10	100
2-year-old trees, 2-3 ft.-----	\$0.30	\$2.50	\$20.00
2-year-old trees, 3-4 ft.-----	.40	3.50	25.00
2-year-old trees, 4-5 ft.-----	.50	4.50	30.00
2-year-old trees, 5-7 ft.-----	.60	5.50	40.00

We have over 45,000 fine trees and can send you select trees at above prices.

ABUNDANCE (Japan)—Medium to large, a rich cherry red; with a decided white bloom; cling; flesh light yellow, exceedingly juicy, tender and delicious; kitchen and market. Tree vigorous and hardy; rapid grower and bears young. Last of July.

BURBANK (Japan)—Large, reddish purple, almost a cherry red; a cling, flesh yellow; juicy; fine for keeping and shipping; good for kitchen and market. Tree rather spreading and requires sharp pruning; an abundant bearer. Very hardy and prolific. Medium late.

BRADSHAW (Niagara, Amer.)—Medium large purplish-red; free; flesh green, juicy; a very fine plum of attractive color; good shipping qualities. Tree an upright grower, bears regularly; enormous crops. Medium early.

DAMSON (Europe)—Small; black with thick blue bloom free; flesh juicy, but rather tart; best for kitchen and market. Tree enormously productive and hardy. September.

IMPERIAL GAGE (N. Y.)—Medium, yellowish green; heavy white bloom; free, flesh juicy, sweet, rich and excellent; one of the very best dessert and market. Tree upright and vigorous. September.

ITALIAN PRUNE (Europe)—Medium large; purplish-black; blue bloom; free; flesh greenish-yellow, juicy, sweet and of good quality; will hang on tree after ripening; splendid for drying and market. Tree very productive. September.

LOMBARD (N. Y.)—Medium large; reddish-violet, with heavy bloom; cling; flesh firm, yellow and very pleasant for both the kitchen and market. Tree usually vigorous, succeeding well on even light soils. Late August.

MONARCH (Eng.)—Large; reddish to blue-purple; thin bloom; free; flesh pale golden-green, juicy, pleasant, recommended for dessert, kitchen and market. Tree comes into bearing young and yields abundantly. August.

SHIPPER'S PRIDE—Large; nearly round; purple in color; flesh is firm, sweet and juicy; a beautiful and valuable variety, excellent for shipping and the kitchen. The tree is hardy and productive. September.

YELLOW EGG (Europe)—Very large greenish yellow; flesh clings to the stone, a little coarse but recommended for drying and cooking and always brings a good price. Tree a free grower and very productive. Late August. Fruit will stand long shipments.

Abundance

YORK STATE PRUNE—Large size; blue; delicious; one of the largest, best in quality and most productive grower and hardy. August.

WICKSON (California)—Very large; reddish purple, with white bloom; cling; flesh firm and meaty, yellow, rich and aromatic; a market sort. The tree is strong and spreading; bears abundantly and early in most localities. August.

Gentlemen:

March 23rd

Received shipment of trees and grape vines and wish to say that I was more than pleased with them. The plants are a credit to any nursery and worth much more than the money asked for them.

Geo. W. B., Rhode Island.

RHUBARB

A deep, rich soil is indispensable to secure large, heavy stalks. Plant in rows four feet apart, with the plants three feet distant. Set so that the crowns are about one inch below the surface. Top dress in the fall with stable manure and fork under in the spring.

Large whole roots, 25c each; \$15.00 per 100.

LINNEAUS — Leaf stalks large, tender, juicy, productive quite early. Good for culinary purposes.

QUEEN — The extra large, tender stalks are a decided pink color and delicious for canning or cooking. A strong grower.

DO NOT MISS OUR FREE SEED OFFER ON INSIDE FRONT COVER.
A GARDEN FULL OF FLOWERS ALL SUMMER FREE.

Grow Delicious Peaches

Every home should have a few Peach trees as there is no more delicious fruit in its season, and that purchased on the market is often of an inferior quality because of the necessity of picking comparatively green. Peach trees grow quickly and produce fruit soon after planting.

BEERS SMOCK—Medium large; creamy white, with crimson blush; flesh yellow, tender and rich, very good quality for the season and recommended for market. Tree a rapid grower, prolific bearer and hardy. Late September-October.

BELLE OF GEORGIA—Medium large, oblate; white, with red cheek; flesh white, firm and excellent flavor; recommended for dessert, kitchen and market. Tree a rapid grower and very productive. Early. July.

CARMAN—Large, round; white, with deep blush flesh tender and juicy with fine flavor; skin very tough, making it available for marketing with profit. Tree reported very hardy and a prolific bearer. August.

CHAMPION—Large, round quite regular; a creamy yellow, with red blush; flesh white with red stains around pit; flavor delicious, sweet and juicy. Tree very hardy and productive. First of September.

CRAWFORD'S LATE—Large; yellow or greenish-yellow; with dull red cheek; flesh yellow, stained red at pit, melting, vinous and very good. Tree is hardy and productive, usually needs thinning to make a good size fruit. Last of September.

CRAWFORD'S EARLY—Large; yellow, with red cheek; flesh yellow, juicy, sweet; its size and beauty make it very popular. Tree vigorous and productive, but buds are very tender. First of September.

ELBERTA—Very large; Golden yellow with bright red cheek tender and juicy; the great market peach of the country. Vigorous grower, does well in all peach growing sections. Middle September.

GREENSBORO—Medium with beautiful blush; flesh white, juicy and good; freestone when fully ripe; said to be larger than Alexander. July.

HALE'S EARLY (Semi-Cling)—Medium size; greenish-white; red cheek; flesh white; melting juicy. Tree vigorous; healthy; an abundant bearer. July-August.

MAYFLOWER—Medium size; practically red all over; flesh firm and of good flavor; extremely valuable as a very early market sort; especially in the southern states. The tree blooms very late and is an upright and good grower; a prolific bearer. Is the earliest peach now known.

ROCHESTER—Is in a class by itself because it is the only good sized yellow freestone Peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well. Free.

STUMP—Very large; roundish; white, with a red cheek; considerable bloom; flesh white, juicy and has a good flavor. The tree is very prolific and bears large crops. Last of September.

ASPARAGUS

With a small plot of ground the home gardener can raise enough Asparagus to supply the table during the entire season.

Two-year Selected Roots: 25 for \$1.00; 50 for \$1.75; 100 for \$3.00 postpaid; 1000 for \$20.00 express. Special low prices on large quantities. Ask us.

CONOVER'S COLOSSAL—Standard kind of first quality.

PALMETTO—Fine early variety; large size.

WASHINGTON—New rust resisting variety developed by the U. S. Department of Agriculture. So much better than other Asparagus that it seems to be in a class by itself. As a standard variety for fancy Asparagus for the home garden or market it stands above all others in size, vigor, tenderness, quality and rust resistance. Strong roots.

Choice Varieties of Cherries

The Cherry Tree is so sturdy and hearty and bears for so many years a large, bountiful crop under the most adverse conditions, that a few of them are the most valuable trees that a home man can plant. Where room is available a few of the sweet varieties are very desirable, but owing to their uncertain cropping, some of the sour varieties should be included among the selections.

TWO-YEAR OLD TREES

Prices of Sour Cherries	Each	10	100
2-3 ft.	\$0.50	\$4.50	\$35.00
3-4 ft.60	5.50	45.00
4-5 ft.80	7.50	55.00
5-6 ft.90	8.50	65.00

SOUR VARIETIES

RICHMOND, EARLY—Medium size, dark red; sprightly acid flavor. This is one of the most valuable and popular of the acid cherries and is unsurpassed for cooking purposes. Tree a splendid grower; productive; hardy June.

WRAGG—Large, roundish, heart shaped; dark crimson and when ripe black or nearly so; flesh juicy, light crimson, firm and good. Very productive, hardy and a sure cropper.

BALDWIN—Fruit very large, round, dark red; flavor slightly acid; sweetest and richest of the Morello type; unexcelled in earliness, vigor, hardness, quality and productiveness. June.

MONTMORENCY—Large, round; red; fine flavor; sub-acid; rich; kitchen market; productive. Late June

Early Richmond

PRICE OF SWEET CHERRIES

	Each	100	100
3-4 ft.	\$0.50	\$4.50	\$35.00
4-5 ft.60	5.50	45.00
5-6 ft.80	7.50	55.00
6-7 ft.	1.00	9.50	65.00

SWEET VARIETIES

SPANISH—Large, pale yellow with red cheek; flesh firm and juicy. One of the best light colored cherries for dessert. Trees very productive. June.

TARTARIAN (Black Tartarian)—Very large; purplish-black, heart-shaped, flesh mild, sweet; quality considered best for market and dessert. Tree vigorous, upright grower, good bearer. July.

BING—Fruit large, dark brown or black; delicious; considered most profitable. Tree hardy, vigorous; succeeds better than most sweets. Late.

LAMBERT—Very large, is heart-shaped; dark purplish-red turning to almost jet-black when ripe; flesh firm; rich and juicy. Tree rugged, strong grower; hardy, enormous bearer. Late July.

SCHMIDT (Smith's Bigarreau)—Very large, dark red-dish black; flesh dark, tender, juicy, with fine flavor. Tree vigorous.

WINDSOR—Large, dull red; firm; fine quality; good bearer, has attracted great attention; recommended by most prominent fruit growers of the country.

WOOD (Governor Wood)—Large, round, heart-shaped; yellow mottled with red, is sweet, juicy, delicious; tree healthy, vigorous, great bearer. June.

Gov. Wood

Raspberry Plants

Raspberries are one of the most delicious and popular fruits grown, are easily cultivated and require little care. Cut out old and weak shoots each year. Plant in good soil about 4 feet apart. With care and attention they will produce large crops of berries. Price of strong plants, except New June, 10 for \$1.10, 25 for \$2.25 postpaid; 50 for \$2.75; 100 for \$5.00; 1000 for \$35.00 by express.

RED VARIETIES

CUTHBERT—Very large; conical; rich crimson; very handsome and firm; flavor sweet, rich and luscious; a great market sort and will stand shipping long distances. Bush hardy, both north and south; stocky upright, productive. Midseason.

ST. REGIS (New Everbearing Variety)—It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen on the young canes and continue until late in autumn. Berries are a bright crimson of large size, and of surpassing quality, rich, sugary with full raspberry flavor.

THE GIANT NEW JUNE—Originated here in Geneva at the New York Experimental Station. An outstanding, worthwhile new variety. Mammoth in size, rich in flavor, sweet and very juicy. The plants are hardy, yield early and heavy and distributed over a long season. The fruit is a bright, handsome red, and ripens the earliest of all red raspberries. The cream of all berries on local markets—outsold all other varieties. Excellent for table use as well as for market. 5 for 75c; 10 for \$1.25.

PURPLE VARIETY

COLUMBIAN—Very large; deep purplish-red; sweet and highly flavored; for kitchen and market. Bush very vigorous and large grower; needs extra room as it is very productive. Early.

BLACK VARIETIES

CUMBERLAND—The largest of all the black caps; coal black berries; very firm and quality of the very best; excellent shipper. Bush a strong grower; stocky canes, unusually prolific. Mid-season.

PLUM FARMER—Large sweet and juicy but firm; very attractive and recommended for all purposes. Matures fruit in short time.

BLACKBERRY PLANTS

Strong Plants: 10 for \$1.25; 25 for \$2.50 postpaid; 100 for \$5.50; 1000 for \$40.00 by express.

BLOWER—Claimed to be the hardiest, most productive, the finest quality and for market it brings the highest price of all blackberries. Large size, jet black, good shipper, best quality and unexcelled pro-

Stregis
Raspberry

BLACKBERRY PLANTS—(Continued)

ductiveness are the main characteristics of this splendid variety.

ERIE—The mammoth blackberry. An extremely large handsome and well flavored berry, coming in to market early and demanding top notch price. Very highly recommended by our State Experimental Station. This big blackberry is a strong, healthy grower, extremely hardy and a safe, dependable variety to plant. The fruit is exceedingly sweet, and positively the best flavored blackberry.

SNYDER—Medium size. Plants hardy, healthy and vigorous. This blackberry bears well and is considered a profitable berry.

MR. F. W. BROW: Ohio, May 13th, 1929

Dear Sir: Your trees received in fine condition, nice tops and roots and would say that they are as fine a lot of trees as I ever planted.

Yours truly J. S. S.

DEWBERRIES, The Big Money Maker Berry

\$1,000 A YEAR PER ACRE WITH LUCRETIA DEWBERRIES

Dewberries are bringing big money and we are advising our customers to get started with them as soon as possible.

Lucretia Dewberries are larger than any blackberry, sweeter and milder in flavor, and of excellent quality for home use or market. They ripen a week or ten days ahead of common blackberries, so sell at very high prices.

The Dewberry belongs to the blackberry family, and the Lucretia is the best of them all. The large berries are incomparably better than any blackberry grown; sweet and luscious throughout and of bright glossy black color. They are very productive, and the most profitable of all fruit crops to grow.

There are two methods of growing the Dewberry. One is to set the plants 4 feet apart in the row, with rows 6 to 7 feet apart. Allow them to grow along the row in their natural way, removing all the new growth until after blooming time, and then allow only enough new vines to grow to provide for the next crop, and at the same time shade the ripening fruit.

The other method of growing is to use short posts and wire. Grown in this way, the fruit is much easier to pick, but is not quite as early. The posts need be only 30 to 36 inches high. Use one wire and in the spring tie all canes onto same, holding them off the ground. Let the new canes lie on the ground throughout the growing season, covering them slightly for winter protection in climates where the winters are severe. About 1,700 plants are required to set an acre.

PRICES: 5 for 75c; 12 for \$1.50; 25 for \$2.50, postpaid; 50 for \$3.50; 100 for \$6.00; 1000 for \$45.00 by express not prepaid.

Selected Varieties of Grapes

Grapes are one of the most productive and hardy fruits that we have. They can be grown in small spaces and trained up the sides of buildings or along fences, occupying very little room. Make the soil mellow and plant vines somewhat deeper than they stood in the nursery and about 8 feet apart by a fence or building. As a commercial crop they are as desirable as corn and as staple on the market. When a vineyard is once established it will be very productive for a lifetime with ordinary care. Poor soil should be given a liberal application of rotten manure.

Each 10 100
1 year old, strong plants--\$0.20 \$1.50 \$12.00
2 year old, strong plants-- .25 2.00 18.00

Ask us for special prices on large quantities.

AGAWAM—Large, round, early, dark red or brown; large, bunched berries, meaty and free from sour pulp; has tough skin and bees never attack it; in flavor it is sprightly moderately sweet, Midseason.

BRIGHTON—Medium size, red; flesh rich, sweet and of the best quality. Ripens earlier than Delaware. Vinous, vigorous, hardy. Early.

CAMPBELL (Campbell's Early)—Large size and glossy black color; pulp sweet and juicy; seeds small, few in number and part readily from the pulp, clusters very large. An excellent keeper and shipper. Early.

CONCORD—Large, purplish black grape; very hardy and productive, ripening about middle of September. This is one of the most popular market grapes.

CATAWBA—Berries large and round, reddish coppery colored; flesh flavored sweet. An excellent late sort. Well known as the great wine grape. Very late.

DELAWARE—Berries rather small, round, skin thin, light red; flesh juicy without any hard pulp; sweet and spicy and delicious flavor. Vine moderately vigorous, hardy and productive. Midseason.

MOORE'S EARLY—Very large, round; a black with a blue bloom; quality very fine and is classed as better and sweeter than Concord. Extremely hardy and productive.

NIAGARA—Large, slightly oval; pale yellow with a white bloom; the quality is equal to Concord and is the standard white grape of the country. Bunches are large and compact. Vine vigorous, hardy and very productive.

WORDEN—The Worden is large and round and black in color; the flesh has a fine flavor unlike that of any other grape on the market; it is most delicious and melting to taste and is a grand dessert and market sort, considered as superior even to the Concord in hardiness and productiveness. Early midseason.

MAMMOTH GRAPE—See opposite page for largest grape in the world. 50c each; 3 for \$1.40; 6 for \$2.60, postpaid.

READ THIS ABOUT MAMMOTH GRAPE

F. W. Brow Nurseries:

Dear Sir—During the winter of 1917-1918 I put in an order for 3 Mammoth grape vines which were received the following spring from you. The Grape is really a Mammoth in every sense of the word. I wish you could see it, and I wish to say that the quality of the grape is the best I ever ate. Sweet as honey and of immense size, very near the size of a quarter dollar. Those of the neighbors who sampled it are over enthusiastic about the grape—E. F., Wisconsin.

HOME VINEYARD COLLECTION

Catalog Price \$2.75.

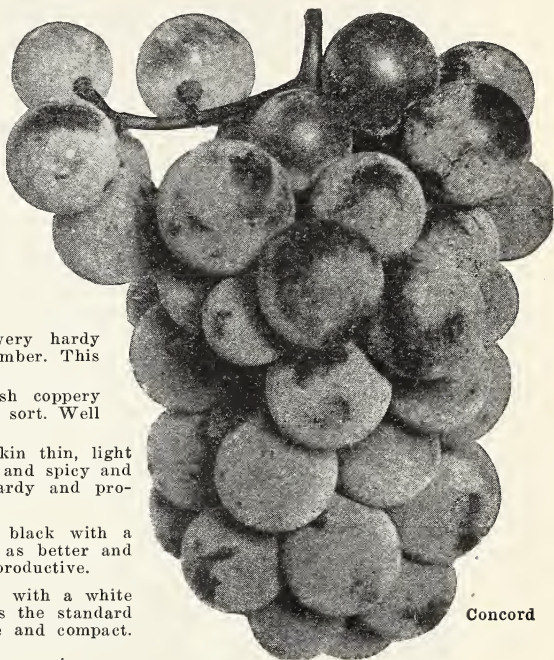

10 Two year Grape Vines for \$2.25

2 Concord 2 Worden

2 Catawba 1 Moores Early

2 Niagara 1 Mammoth

By mail postpaid for \$2.25.

Concord

CURRANT BUSHES

2 year plants, 25c each.

RED CROSS—Clusters are long and of medium size; berries are large in size. Probably the sweetest of all varieties.

PERFECTION—Color red, a size larger than the Fay. Clusters average longer and the size of berries is maintained to the end of the bunch.

FAY'S PROLIFIC—A popular red currant. As its name indicates, it is very productive and hardy.

WILDER—A new red currant, with large, fine flavored fruit of a bright, attractive red color.

GOOSEBERRIES

2 year plants, 30c each.

DOWNING—Large, handsome, pale green gooseberry of splendid quality. Soft and juicy.

HOUGHTON—A very productive, hardy berry of pale red; sweet and juicy.

IMPORTANT NOTICE

Due to a Federal Quarantine, Currants or Gooseberries cannot be shipped into the following States: Arizona, California, Colorado, District of Columbia, Delaware, Georgia, Idaho, Kansas, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Mexico, North Carolina, Rhode Island, South Carolina, South Dakota, Tennessee, West Virginia, Washington, Wyoming and Canada.

Surpassing all other grapes in appearance the MAMMOTH is the largest and handsomest grape grown. The vine is healthy, vigorous and productive. The clusters of fruit are large, the berries very large, roundish, black covered with heavy, blue bloom.

Strong vines 50c each, 3 for \$1.40, 6 for \$2.60 postpaid.

READ WHAT ONE OF OUR PATRONS HAS TO SAY ABOUT THE MAMMOTH GRAPE. His letter, which was unsolicited, is printed at foot of Grapes on page 23.

Get your order in early and take advantage of liberal discounts offered on page one. Free seeds given with all orders over \$1.00.

STRAWBERRIES

Our plants are fresh dug for each customer's order, carefully packed to reach you in the best condition. Over a million plants to choose from. We can send you some good ones. 25 for 75c; 50 for \$1.00; 100 for \$1.50, postpaid; 1000 for \$10.00 by express.

FREE GIFT with every Strawberry order, we include one improved Iris. Free.

AROMA. One of the best all late varieties. A leader North and South because of its vigor, productiveness, and the beauty of the berries. They are light red in color, every berry almost perfect shape, and a bright green cap adds greatly to their beauty and selling price.

BIG JOE (Per.)—The plants of this variety are exceedingly vigorous and make fine fruiting rows. The foliage is healthy and attractive. The berries are produced in great abundance, one of the most productive varieties in cultivation. The berries are very large, regular in shape, glossy, attractive and very firm, making it a good variety for market. It has been tested by large growers in Oswego county who speak highly for it as a valuable variety for market. It commands the highest prices among the buyers who ship to the large city markets.

DUNLAP—Medium size; dark glossy red with golden seeds; flesh reasonably firm, red and of excellent flavor. Highly recommended for all purposes. Productive and hardy. Mid-season.

GANDY—This variety for years has ranked as leader among fancy late shipping berries. If Gandy were only a little more productive, it would continue to hold a place at the very top. Gandy likes black, swampy land or springy land that is not too sandy. We believe Gandy is the only late shipping berry that equals Chesapeake in size, attractiveness and shipping qualities.

PREMIER (P.)—This is the most popular early strawberry of the day. The berries are very large, long pointed, light red in color and present a good appearance in the basket and in market. It produces such a quality, that growers are simply carried away with it, no other early strawberry is anything near equal to it in productiveness.

Giant Mastodon Everbearing

PARSONS BEAUTY—Large, bright red, conical, firm berries, shipping well; productive and profitable.

WM. BELT—On most markets size and appearance of strawberries determine the selling price, but where quality is counted in addition to large size and handsome appearance, Wm. Belt should be grown.

Everbearing Strawberries

Everbearing varieties are receiving a great deal of attention and berries were being picked in our nurseries all through the fore part of October. They produce a good crop in June as well as a heavy crop in late summer and autumn.

Strong plants, 25 for 75c; 100 for \$2.50 postpaid.

CHAMPION EVERBEARING (Per.)—A seedling of progressive and a great improvement over that variety. The Champion is to the fall bearing strawberry what Senator Dunlap is to the ordinary kind.

PEERLESS (P.)—An improvement over the Superb of which it is a seedling. The plants are healthy growers and the berries are very glossy and more productive than Superb.

F. W. Brow Nurseries
Rose Hill, N. Y.

Connecticut.

June 3rd, 1928.

Gentlemen: I wish to express to you my satisfaction with the strawberry plants which you sent me. I have bought from several places but yours were far the best plants I have ever received. They were large to start with and are all growing vigorously and blossoming more than I desire the first season.

Signed, R. W.

MASTODON—The Famous Giant Everbearer The Most Wonderful Berry Ever Introduced

Mastodon takes first place among the everbearers. It seems to succeed everywhere. No variety could possibly produce more big berries per acre than Mastodon. Growers here begin picking Mastodon berries early and continue to pick and sell until light freezing weather. Every plant is loaded with big berries and blossoms, and while you pick they keep right on bearing more berries. There seems to be no end to their capacity to fruit. In the early summer they fruit just as well as they do in the fall. You will like Mastodon.

25 for \$1.00; 50 for \$1.75; 100 for \$3.00 postpaid.

DECORATIVE HOUSE AND BEDDING PLANTS

Storm Cloud

ASPARAGUS SPRENGERII (Feather Fern)

—Especially valuable for window box and hanging basket planting, for vases and as specimens when grown in pots or as tub plants. When used for cut-flower work, the foliage retains its freshness for an unusual length of time. 28c each; larger size 48c.

STRAWBERRY GERANIUM (*Saxifraga Sarmientosa*)—Exceedingly rare and beautiful. Leaves striped freely with silver bands; blooms white and of great beauty. Adapted for hanging baskets, vases, etc. 26c each.

MOONGLOWER, GIANT WHITE

(*Ipomea Maxima*) Glistening white blooms produced in wonderful profusion. Rapid grower; unequalled for porch and lattice shading. 26c each, 3 for 74c.

Pansy Geranium

NEW WATER FERN

—This interesting and rather peculiar house-plant, requires no soil, but thrives easily in a vase or bowl of water. The beautiful mossy green, fern-like foliage curls up and apparently goes to sleep when taken out of water and remains in its sleeping or dormant state as long as kept out of water but awakens again in a few minutes after being placed in water. This plant is somewhat similar to the well-known Resurrection Plant. 30c.

Variegated Vinca

FUCHSIAS

LITTLE BEAUTY—Dwarf growing and profuse blooming. Sepals carmine, corolla deep lilac. Each 30c.

NEW DOUBLE PINK BEAUTY—Immense double, deep pink blossoms almost hide the foliage. Vigorous. Each 32c.

PHENOMENAL—Very double, deep violet-purple flowers, darker even than the Midnight. Ea. 27c.

SPECIOSA—Deep scarlet, single flowers, reflexed petals salmon pink tipped green. Each 24c.

STORM CLOUD—Exquisite double flowers are pure white with crimson reflex petals. Each 24c.

WATERMELON BEGONIA—Leaves distinctly variegated white and green, thick and waxy-like, having the appearance of being powdered with frosted silver. Withstands dry air of rooms better than the majority of plants. 32c ea.

Watermelon Begonia

PANSY GERANIUM

(Easter Greeting)—The blooming season of this Geranium extends from late winter to early fall. Color a fiery amaranth red. An excellent variety. 45c each; 3 for \$1.28.

Asparagus Sprengerii

AMERICAN WONDER LEMON

—A true everbearing Lemon. Fruit has been taken from a tree weighing over four pounds. Of easy culture, flowering and fruiting in ordinary soil. Flowers are as fragrant as orange blossoms. 32c each; larger plants 75c each; 3-yr. plants \$1.50. (Cannot be shipped into Ala.; Ariz.; Calif., Fla. Ga., La., Miss.)

Wonder Lemon

WATER HYACINTH

—Forms a lovely rosette of curious shining green leaves and throws up spikes of exquisite lilac-rose flowers. Can be grown in a glass vessel with shells and white sand so arranged as to conceal a small amount of soil; also in tub or pool. 30c each; 3 for 83c.

Water Hyacinth

PINK WAX PLANT—A well known favorite for rock work, hanging baskets; also for pot culture. Of bushy growth. Produces beautiful pink flowers of wax-like appearance. 30c each; 3 for 85c.

OLEANDERS

ROSEA—An old favorite. Beautiful pink double flowers. Very fragrant. 32c each; 3 for 90c.

LILIAN HENDERSON—Double white flowers, delightfully fragrant. One of the finest plants offered in recent years. 32c each; 3 for 90c.

DRACAENA INDIVISA—The "Fountain Plant." Slender, drooping leaves with delicate stripings. Very graceful, exceedingly ornamental for window box, vase or urn. 25c, larger plants, 50c.

NOTE—These plants will be packed separate from other plants and sent by Parcel Post, prepaid.

Pink Wax Plant

Pink Oleander

Decorative House and Bedding Plants—Continued

GERANIUMS

BEAUTY POITEVINE—Double flowers, rich salmon-pink. 24c.

JEAN OBERLE—Peach-pink flowers shading to white. 25c.

JEAN VIAUD—Bright rosy-pink distinctly blotched. 26c.

AMERICAN BEAUTY—Resembles American Beauty Rose in color. 29c.

SNOWCLAD—Large trusses are pure white. 24c.

WILDFIRE—Gorgeous coloring, bright flame red. 28c.

SPECIAL OFFER—The six Geraniums offered above, \$1.46.

Wild Fire

Heliotrope

HELIOTROPE MID-NIGHT—An old favorite, famous for its delicious fragrance. Immense blooms of darkest lavender. 28c each.

FAN LEAF PALM (Latania Borbonica)—Leaves large, fan-shaped and of a cheerful green color. Plant of hardy constitution and adapted to all decorative purposes, within or without doors. 50c each, larger plants \$1.00 and \$1.50 ea.

DUSTY MILLER

Extensively used for edging beds and borders. Silver gray foliage, deeply cut. Of bushy, compact growth. May be kept clipped to desired height and shape. 20c each; \$1.02 per dozen.

Silver Leaved Dusty Miller

SINGLE PETUNIAS

Richness of color, duration of bloom and easy culture will always make the Single Petunia very popular. Unsurpassed for massing in beds or border planting. Also fine for basket, vase and window boxes. Plants in mixed colors, 20c each; 3 for 57c.

Sweet Scented Violets

DOUBLE VIOLETS

—Bold, fine flowers, very fragrant and very free blooming. Excellent for cut-flower planting. 28c each.

CARNATION CRIMSON KING

—One of the most satisfactory garden plants. Blooms in June and July, height fifteen to twenty inches. Rich crimson flowers, strongly scented. No better hardy garden perennial to be had. 40c each, 3 for \$1.14.

LATHYRUS (Hardy Climbing Sweet Pea)

—Free flowering, extremely attractive. Looks like the regular sweet pea. Will flower all summer. Pink, Crimson or White. 42c each, 3 for \$1.20.

ANTHERICUM (St. Bernard's Lily)

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.

—Recurved, graceful foliage which makes a handsome pot plant. Leaves, dark green, marked with broad stripes and bands of creamy-white color. Bears large spikes of white flowers. 30c each, large plants, 50c.
